

# Practix Unveils OK-256 Six-Station Heat Press for High-Efficiency DTF/DTG Production

*Practix Manufacturing LLC proudly announces the release of its newest innovation: the OK-256 Carousel Heat Press, a fully automated six-station heat press.*

ATLANTA, GA, UNITED STATES, June 6, 2025 /EINPresswire.com/ -- Practix Manufacturing LLC, a leader in industrial heat press technology, proudly announces the release of its newest innovation: the OK-256 Carousel Heat Press, a fully automated six-station heat press engineered to meet the demands of high-volume, DTF precision-driven production environments.

Practix OK-256 Heat Press Six-Station Heat Press

Designed for superior productivity, the OK-256 features two independent heat stations and one dedicated cooling station, enabling simultaneous pressing of multiple items—a game-changer for businesses looking to scale up output without sacrificing quality. The system supports both automatic and manual operation modes, offering the versatility needed for dynamic workflows.

With a built-in Laser Alignment System, the OK-256 ensures accurate design placement every time, reducing setup time and operator error. In addition, a safety light curtain protects the user by automatically halting operation when the work zone is breached.

The OK-256 Carousel Heat Press is now available from American Print Consultants (APC), a trusted distributor known for top-tier service and support in the print and finishing industry.

## Key Features:

- Automated Six-Station Operation: Boosts throughput with multi-item processing.
- Dual Independent Heat Presses + Cooling Station: Allows continuous workflow.

- Laser Alignment System: Provides consistent, precise placement.
- PLC Digital Control: Enables exact settings for temperature and time.
- Heavy-Duty Construction: Built for long-term industrial use.
- Versatile Applications: Ideal for garments, bags, patches, leather, sublimation, and promotional products.
- Supports Multiple Heat Transfers: Compatible with DTF, screen print, Supacolor, vinyl, sublimation, foil, rhinestones, twill, and ink fixation.
- Adjustable Settings: Tailored control for different materials and media.

#### Technical Specifications:

- Model: OK-256 Carousel Heat Press
- Platen Size: 16" x 20" per heat press
- Power: 7.5KW per heat press, 220V
- Temperature Range: Up to 450°F
- Time Range: 0–999 seconds
- Dimensions: 108" x 108" x 60"
- Gross Weight: 6,000 lbs

The OK-256 Carousel Heat Press by Practix is the ultimate DTF production solution—powerful, safe, and precise. Now available through American Print Consultants (APC).
