

# PFMCrypto Sets Industry Record For Offering Cloud-Based Computing Power, Surpassing Projects Like XRP In Global Reach

*PFMCrypto surpasses 192-country availability, outpacing major crypto networks in global cloud computing access and decentralized infrastructure.*

LOS ANGELES, CA, UNITED STATES, June 6, 2025 /EINPresswire.com/ -- While access to computing power in the crypto space is often restricted to specific locations, the demand for it continues to soar, signalling a significant need to democratize accessibility. PFMCrypto is taking charge of building a more inclusive ecosystem by bridging the gap between demand and availability. In a recent development, PFMCrypto announces its presence in over 192 countries.

Try cloud mining risk free. PFMCrypto offers 1 day of free computing power rental.

"We launched our platform as a trusted crypto asset management offering users access to remote computing power for free. Now, we are dedicated to widening the gap in accessing this part of the crypto economy. We believe everyone should be able to access a more decentralized crypto space without border restrictions, and with a presence in 192 countries and still counting, we just set the ball rolling." PFMCrypto CEO said.

One of the core promises of cryptocurrency is the creation and promotion of a borderless and decentralized financial system. However, access to the computing power that drives it remains restricted, posing a significant barrier to user participation in leading cryptocurrency ecosystems like the Bitcoin blockchain.

As a project promoting \$0 crypto participation, PFMCrypto [ [PFMCrypto.net](https://PFMCrypto.net) ] is set to redefine access to crypto computing power by delivering its service in over 192 countries and empowering users regardless of location. Currently, over 9 million users benefit from its

advanced computing power to validate transactions and earn rewards in leading ecosystems such as the Bitcoin Blockchain.

What are the Core Features of PFMCrypto?

- Flexible Plan System: Users can rent computing power for a pre-selected period, ranging between 1 to 3 days.

- Low Entry Barrier: [With a \\$10 registration bonus](#), users can start earning for free

- No commitment: Earn BTC on any mobile device. No hardware purchase or electricity cost.

- No restriction: Multiple contracts are structured to allow users to earn rewards daily without withdrawal fees or restrictions.

- Advanced security protocols: PFMCrypto uses cold wallet storage, 2FA and smart contracts to ensure safety.

- Transparency: A trackable dashboard eliminates hidden costs and unexplained charges in crypto cloud mining.

- Enhanced Decentralization: With over 9 million miners at the time of writing, PFM is set to keep the crypto space more diverse and decentralized.

Beyond accessibility, PFMCrypto combines AI with cutting-edge technology to offer users a platform featuring sufficient tech tools and data that makes renting crypto computing power a truly rewarding experience.

About PFMCrypto

PFMCrypto is operated by Precision Financial Management Ltd, a UK-registered and FCA-regulated company (Company No. 11719896), headquartered in Leyland, England. Founded in 2018, PFMCrypto represents a new category of digital asset platform—data-driven, performance-focused, and globally trusted.
