

# NaturePest Holistic Pest Control Announces Comprehensive Organic Lawn Care Services for South Florida

HOMESTEAD, FL, UNITED STATES, June 11, 2025 /EINPresswire.com/ -- NaturePest Holistic Pest Control, a trusted leader in eco-friendly solutions, today announced the expansion of its services to include comprehensive [organic lawn care](#), specifically tailored for the unique challenges of St. Augustine lawns across South Florida. This new offering reinforces the company's commitment to fostering vibrant outdoor spaces that prioritize environmental health and family well-being.

core aeration

For years, South Florida homeowners have sought solutions for their St. Augustine lawns that struggle with intense heat, humidity, and compaction. Traditional chemical-laden approaches often offer temporary fixes while raising concerns about safety for children, pets, and the delicate local ecosystem. NaturePest's organic lawn care services address these challenges head-on, promoting long-term health and resilience from the soil up.

“

We believe a truly beautiful lawn thrives in harmony with nature," says Franklin Hernandez, Owner. "We've extended our passion for eco-friendly solutions to organic lawn care."

"We believe a truly beautiful lawn thrives in harmony with nature," says Franklin Hernandez, Owner. "With over 19 years of holistic pest control expertise, we've extended our

passion for eco-friendly solutions to organic lawn care. Our new services are designed to cultivate lush, vibrant St. Augustine lawns that are not only stunning but also safe and sustainable for generations to enjoy in our unique South Florida climate."

NaturePest's specialized organic lawn care program includes:

[Core Aeration](#): Relieves soil compaction, allowing air, water, and nutrients to penetrate deeper, promoting stronger root growth and superior drought resistance.

[Compost Top Dressing](#): Enriches soil with nutrient-dense organic matter, improving structure, increasing moisture retention, and fostering beneficial microbial activity for a naturally richer, healthier lawn.

**Mycorrhizal Soil Inoculation**: Introduces beneficial fungi that form symbiotic relationships with grass roots, enhancing nutrient uptake and boosting natural resistance to stress and disease.

**Bio Stimulants & Soil Amendment Sprays**: Utilizes eco-friendly formulations of humic acids, kelp, micronutrients, and beneficial microbes to supercharge soil health, improve nutrient absorption, and promote overall plant vigor. These integrated services work synergistically to transform lawns into resilient, thriving ecosystems. Homeowners can expect deeper root growth, enhanced drought and heat tolerance, naturally vibrant green color, and a landscape that is inherently more resistant to pests and diseases – all achieved without harsh synthetic chemicals.

As a locally owned and operated business since 2014, NaturePest Holistic Pest Control is deeply committed to the South Florida community and its environment. By choosing NaturePest, customers are not just investing in exceptional lawn care; they are joining a movement towards a greener, healthier future for all.
