

# LEAD WITH AI Podcast Reaches #1 in Technology on Apple Podcasts, Redefining How the World Engages With AI

*Lead With AI tops Apple's Technology chart at #1, spotlighting real AI products and human stories driving innovation and global impact.*

WASHINGTON, DC, UNITED STATES, June 9, 2025 /EINPresswire.com/ -- Lead with AI Podcast Reaches #1 on Apple Podcasts in Technology Category

A Milestone Moment for AI Storytelling and a New Era of Global Conversation on Human-Centered Innovation

Lead with AI, the podcast where innovation meets possibility, has officially claimed the #1 spot on Apple Podcasts in the Technology category.

Hosted by Dr. Tamara Nall—AI PhD, CEO of TLN Worldwide Enterprises, and a global voice in ethical, human-centered AI—this achievement marks a significant shift in how the world is engaging with artificial intelligence: not just through code, but through conversation.

Unlike traditional tech podcasts heavy on jargon and hype, Lead with AI brings listeners into intimate, coffee-shop-style conversations with the creators of real, transformative AI products. From life-saving medical platforms to waste-sorting smart bins and cinematic no-code theater tech, the show captures the “wow” moments behind AI breakthroughs—with a focus on how they’re changing lives, not just headlines.

“This moment is bigger than a chart ranking. It’s proof that the world is hungry for AI stories that feel human, hopeful, and grounded in impact,” said Dr. Nall. “Reaching #1 validates our mission to make AI innovation approachable, actionable, and transformative.”

Since its launch, Lead with AI has featured CEOs, scientists, and builders whose AI-powered products are reshaping business, healthcare, sustainability, and more. The show has become a trusted platform for AI founders and innovators to share their journeys, their technology, and their vision for a better world.

#### Why It Matters:

**Human-Centered AI:** Lead with AI breaks down complex tech into real stories of human transformation.

**A Global Platform:** With listeners around the world, the podcast fuels a cross-sector movement to ensure AI is used for good.

**A New Gold Standard:** This #1 ranking puts Lead with AI in the company of tech giants—while amplifying diverse, emerging voices in the field.

Whether you're AI-curious, AI-terrified, or riding the wave of AI-FOMO, Lead with AI is your front-row seat to the future of technology.
