Canisters Market Report 2025 - Market Size, Trends,  
And Global Forecast 2025-2034

What Is The Projected [Market Size Of The Canisters Market?](#)

The canisters market has experienced noteworthy growth in the past few years. The industry increased from \$2.53 billion in 2024 to \$2.76 billion in 2025, reflecting a compound annual growth rate CAGR of 9.0%. This impressive growth can be primarily attributed to expansion in the packaged food industry, urbanization and consumer lifestyle changes, the burgeoning pharmaceutical industry, a surge in pet food sales, and the increasing demand for tobacco alternatives.

Are We Expecting Considerable Growth In The Years To  
Come?

Indeed, the canisters market is expected to continue its  
strong growth trajectory. It is projected to climb to \$3.86

billion in 2029 with a compound annual growth rate CAGR of 8.8%. This anticipated growth can be attributed to the rise in e-commerce brands, expansion of clean label and organic products, growing demand for medical cannabis products, regulatory push on pharmaceutical packaging, and use in military and industrial applications. Furthermore, major trends in the forecast period include technological advancements in manufacturing, innovative designs and materials, customization and personalization, a shift toward minimalist and clean packaging designs, and

the incorporation of smart labeling and tracking.

What Is Propelling The Canisters Market Forward?

The growing demand for eco-friendly packaging solutions is expected to supercharge the [growth of the canisters market](#). Eco-friendly packaging minimizes environmental harm by using sustainable, recyclable, or biodegradable materials. The demand for these packaging solutions is largely driven by increasing consumer awareness, as shoppers actively seek products that minimize environmental impact and reduce plastic waste. Canisters contribute to eco-friendly packaging by offering durable, reusable, and recyclable solutions that help reduce waste and minimize the need for single-use plastics. For instance, according to a report published by Shorr Packaging in January 2025, 90% of consumers are more inclined to purchase from brands that offer sustainable packaging, and 54% have intentionally chosen products with sustainable packaging in the past six months.
