

Aqueouss Challenges Exide, Amaron with Next-Gen Lithium Batteries

Aqueouss challenges Exide & Amaron with next-gen lithium tech, leading India's shift to inverter lithium batteries & battery energy storage systems.

DELHI, DELHI, INDIA, June 9, 2025 /EINPresswire.com/ -- India's battery market is witnessing a major transformation as Aqueouss – Hold the Volt (<https://aqueouss.in>) emerges as a strong challenger to industry giants like Exide and Amaron. With its cutting-edge LiFePO₄ lithium battery technology, Aqueouss is leading a new wave of clean, efficient, and scalable [energy storage solutions](#) across automotive, inverter, and solar segments.

Lithium is Future

“

Our lithium batteries aren't just upgrades—they are the future of power.”

Vibhas Verma

longer lifespan, fast charging capabilities, and low maintenance. Aqueouss is capitalizing on this shift by delivering next-gen [lithium batteries](#) that outperform conventional models on performance, safety, and sustainability.

“India needs future-ready power solutions, and we're here to deliver exactly that,” said Vibhas Verma (co-founder of Aqueouss). “We're not just another battery company—we're building the next standard in energy.”

With robust R&D, advanced manufacturing, and a vision for energy independence, Aqueouss is building a name as a trusted alternative to legacy brands—offering lightweight, durable, and eco-conscious battery systems tailored for modern India.

Join the Lithium Revolution

Aqueouss is now expanding its dealer and distributor network nationwide, inviting partners to be part of India's clean energy future.
