

# Ketamine Academy To Launch Spravato® FastTrack: An 8-Week, Live Spravato® (esketamine) Implementation Program

*Live, step-by-step program to help clinics get certified, operational, and reimbursed for Spravato®—without the usual delays or confusion.*

ORLANDO, FL, UNITED STATES, June 9, 2025 /EINPresswire.com/ -- Today, [Ketamine Academy](#)

“

Clinicians know Spravato® can change lives, but the complexity of regulatory and billing requirements stops most practices from providing this amazing service.”

*Jason Duprat, MBA, MSA,  
APRN, CRNA*

announced the launch of Spravato® FastTrack, a cohort-based training and implementation system that equips outpatient mental-health and IV ketamine clinics to add FDA-approved Spravato® (esketamine) nasal spray services in just 90 days. Enrollment is now open for the inaugural 20-seat cohort beginning June 24, 2025.

Spravato® FastTrack combines twice-weekly live workshops, step-by-step checklists, SOPs, and on-demand expert support to guide practices through REMS certification, staff credentialing, procurement, storage, billing, and payer contracting. Participants also receive a

90-Day Credential-Ready Guarantee.

“Clinicians know Spravato® can change lives, but the complexity of regulatory and billing requirements stops most practices from providing this amazing service,” said Jason Duprat, MBA, MSA, APRN, CRNA, founder and lead instructor of the Ketamine Academy. “Our new FastTrack programs hands them the roadmap and my team serves as their pit crew so they can focus on patient care, not paperwork.”

## Market Need

- More than 21 million U.S. adults battle major depression each year; up to one-third have treatment-resistant depression (TRD).
- While Spravato® is FDA-cleared for TRD, fewer than 15% of IV-ketamine clinics currently offer it, largely due to REMS, DEA, and payer-compliance hurdles.

## Program Highlights

- 8 weeks of live, interactive instruction with Spravato® clinicians, coders, and revenue-cycle experts
- Comprehensive implementation program covering credentialing, REMS, facility prep, billing, coding, revenue cycle management, and inventory
- Template library: prior-auth packets, controlled-substance logbooks, billing, RCM, policy language
- Billing playbooks for buy-and-bill vs. specialty-pharmacy pathways in Medicare and major commercial plans
- Private peer community and 72-hour Q&A desk for real-time problem-solving

Clinics completing the program can expect a positive return on investment (ROI) by caring for a single Spravato® patient. Additional information can be found on their [Spravato® FastTrack enrollment page](#), or Ketamine Academy's [latest blog post](#).
