

# SGS to Showcase Innovative eBike Testing and Certification Solutions at Eurobike 2025

GENEVA, SWITZERLAND, June 10, 2025 /EINPresswire.com/ -- SGS, the world's leading testing, inspection and certification company, is delighted to announce its participation in Eurobike 2025, running from June 25-29, 2025, in Frankfurt.

Eurobike 2025 is Europe's key networking event and conference for the bike and e-mobility sector, with this year's theme being 'Shaping active mobility'. An increased focus on electrification for bike-related consumer goods — from mobility aids and children's micromobility to cargo bikes and e-scooters — has led to increased regulatory scrutiny. Businesses are under pressure to ensure their products are compliant and market-ready.

SGS will be co-exhibiting at Eurobike 2025 alongside EFBE, a globally recognized expert in structural and fatigue testing for bicycles.

Experts from both SGS and EFBE will be available at booth A19, Hall 8 at Messe Frankfurt, to offer advice on a comprehensive range of services, including:

- EFBE TRI-TEST® for frame, fork and compound structural validation
- Mechanical safety, including braking performance
- Electrical safety and electromagnetic compatibility (EMC)
- Battery and charger safety testing
- E-bike range and performance testing

SGS will showcase ebike testing and certification solutions at Eurobike 2025

- Functional safety evaluation
- Chemical safety and restricted substance compliance (REACH, RoHS, PFAS)
- Wireless transmission and cybersecurity

Eurobike 2025 takes place from June 25 to 29 at Messe Frankfurt, Ludwig-Erhard Anlage 1, 60327, Frankfurt, Germany.
