The "My Dad" feature utilizes Times of My Life's advanced virtual biographer technology to conduct personalized interviews with users about their fathers and cherished memories.

“

Every father has a unique story worth telling, and every child has precious memories of dad worth preserving.”

Through an intuitive conversational process, the AI guides users through thoughtful questions about their dad's life, personality, accomplishments, and the special moments they shared together. The virtual biographer then crafts these memories into a beautifully written, cohesive story that captures the essence of their father's impact on their life.

"Every father has a unique story worth telling, and every child has precious memories worth preserving," said

Michael O'Donnell, creator of the Times of My Life app. "Our app makes it incredibly easy for anyone to create a meaningful tribute that celebrates their father's life and legacy, regardless of their writing experience."

The versatile "My Dad" story serves multiple purposes:

- \* Living Tribute: Create a heartfelt story about a living father as a touching Father's Day gift.
- \* Memorial Tribute: Honor and remember a father who has passed away.
- \* [Gift Cards](#) Available: Purchase gift cards for living dads to help them tell their own life stories using the app's comprehensive storytelling tools.

"We recognize that Father's Day can be both a celebration and a time of remembrance," added Michael O'Donnell. "Our technology allows families to create lasting tributes that can be shared with loved ones, preserved for future generations, or simply serve as a personal way to process and honor their relationship with their father."

The app's virtual biographer represents a breakthrough in AI-powered storytelling technology. The platform's sophisticated algorithms understand the nuances of family relationships and personal memories, asking the right questions to draw out meaningful details and emotions. Users don't need any writing experience – the AI handles the complex task of organizing memories into compelling narratives.

The "My Dad" stories can be customized in length and tone, from brief heartfelt tributes to comprehensive life stories. Users maintain full control over their content, with the ability to review, edit, and refine their stories before completion.

The "My Dad" story is now available through the Times of My Life platform at <https://stories.timesofmy.life>. Gift cards for the complete life storytelling experience are also available for fathers who want to document their own stories.
