

# Rad Web Hosting Launches New Paris, France Data Center to Expand Global Infrastructure

DALLAS, TX, UNITED STATES, June 11, 2025 /EINPresswire.com/ -- [Rad Web Hosting](#), a leading provider of web hosting and cloud infrastructure solutions, is proud to announce the launch of its new data center in Paris, France. This expansion marks a significant milestone in the company's global growth strategy and enhances its ability to deliver ultra-low-latency and high-performance hosting services across Europe.

The new [Paris data center](#) provides state-of-the-art connectivity, enterprise-grade redundancy, and advanced security features, allowing clients to deploy cloud VPS, [dedicated servers](#), and cloud infrastructure closer to their European user base. With this launch, Rad Web Hosting strengthens its commitment to providing reliable, scalable, and localized hosting solutions to businesses around the world.

"Launching in Paris reflects our ongoing investment in global infrastructure and our dedication to meeting the needs of our international clients," said Scott Claeys, Founder & CEO of Rad Web Hosting. "This new location gives European businesses faster access to our full suite of hosting solutions with the same world-class support and performance our clients expect."

## Key Features of the Paris Data Center:

Strategic central-European location for improved network speed and regional compliance

Tier III+ facility offering high availability and uptime

Rad Web Hosting Launches New Paris France Data Center to Expand Global Infrastructure
