

# AUO Display Plus Joins Microsoft Device Ecosystem Platform

HSINCHU, TAIWAN, June 11, 2025

/EINPresswire.com/ -- AUO Display Plus, a global leader in industrial and commercial displays and a subsidiary of AUO, has announced its participation in the Microsoft Device Ecosystem Platform (MDEP) as an ODM partner, together driving the next wave of innovation in smart enterprise applications. Powered by the Android Open Source Project (AOSP), MDEP offers an open, adaptable foundation for device manufacturers and software developers to build cutting-edge solutions supported by Microsoft's enterprise-grade security, management and reliability standards. By joining MDEP, AUO Display Plus is positioned to deliver seamless, interoperable products that enhance collaboration efficiency in modern workspaces—while accelerating time-to-market.

"With AUO Display Plus's proven expertise in advanced display technologies and integrated hardware-software solutions, joining the Microsoft Device Ecosystem Platform marks a significant milestone for us. It enables us to tap into a robust ecosystem that fosters innovation and collaboration," said CC Lee, CTO at AUO Display Plus. "This partnership underscores our commitment to driving impactful transformation across the evolving enterprise landscape. We are well-positioned to co-create next-generation innovations that redefine how people work and collaborate," added Scott Hix, CMO and GM of the Smart Education and Enterprise Business Group at AUO Display Plus.

“We’re thrilled to welcome AUO Display Plus to the Microsoft Device Ecosystem Platform,” said Juha Kuosmanen, Head of MDEP at Microsoft. “As MDEP continues to grow into a strong community of forward-thinking partners, AUO Display Plus brings valuable strengths in display innovations. Their vision and capabilities complement our goal of enabling partners to build secure, scalable, and reliable devices that empower the advancement of future enterprise experiences.”

At InfoComm 2025, attendees can experience AUO Display Plus’s solutions in action at Booth 2181, presented by its subsidiary, Avocor.

#### Safe Harbour Notice

AUO Corporation (“AUO” or the “Company”) (TWSE: 2409), a global leader of TFT-LCD panels, today announced the above news. Except for statements in respect of historical matters, the statements contained in this Release include “forward-looking statements.” These forward-looking statements are based on our management's expectations, projections and beliefs at the time regarding matters including, among other things, future revenues and costs, financial performance, technology changes, capacity, utilization rates, yields, process and geographical diversification, future expansion plans and business strategy. Such forward looking statements

are subject to a number of known and unknown risks and uncertainties that can cause actual results to differ materially from those expressed or implied by such statements, including risks related to the flat panel display industry, the TFT-LCD market, acceptance of and demand for our products, technological and development risks, competitive factors, and other risks. In addition, our Annual Report contains other information on these and other factors that could affect our financial results and cause actual results to differ materially from any forward-looking information we may provide. We undertake no obligation to update or revise any forward-looking statements to reflect subsequent events, new information or future circumstances.
