

# GREENWOOD INDUSTRIES DONATES NEW ROOF TO FAMILY PROMISE METROWEST CENTER, ENHANCING SAFE SHELTER FOR LOCAL FAMILIES

WORCESTER, MA, UNITED STATES, June 11, 2025 /EINPresswire.com/ --

Greenwood Industries, the Northeast's leading provider of commercial roofing and building envelope solutions, has generously donated and installed a new roof for the Family Promise Metrowest Center. This pro bono project, covering all materials and labor, was made possible in part thanks to donated materials from QXO, Inc. (NASDAQ: QXO), and reflects Greenwood's commitment to community partnership and support for families experiencing homelessness.

Family Promise Metrowest serves families with children who are homeless or at risk of homelessness by providing shelter, education, and comprehensive support. The organization focuses on low- and moderate-income Massachusetts residents, prioritizing those from the Metrowest region. Families of all compositions and genders are welcomed.

“

When businesses step up like this, they don't just improve buildings, they strengthen entire communities.”

Prior to the renovation, the Center's roof was severely deteriorated and structurally compromised. These conditions disrupted daily operations, hindered family meetings, and affected collaboration with community partners. A secure and well-maintained facility is vital to delivering the safe, respectful environment Family Promise Metrowest strives to provide.

With a new roof in place, the organization is now positioned to expand in-person workshops, strengthen partnerships, and engage more volunteers. The upgrade ensures that the Center remains a professional, welcoming space—one that reflects the dignity every family deserves.

“Greenwood Industries didn’t just replace a roof, they reinforced the foundation of our mission,” said Danielle Conti, Executive Director of Family Promise Metrowest. “Their generosity and partnership reflect a shared belief that every family deserves dignity, safety, and a place to grow. When businesses step up like this, they don’t just improve buildings, they strengthen entire communities.”
