medical senior care services. The company's highly trained and rigorously screened caregivers are dedicated to providing compassionate care while preserving the dignity and independence of their clients. Senior Helpers is also nationally recognized as a top workplace for caregivers.

Both Fatema's and Ali's passion for senior care comes from personal experiences. Fatema's witnessed the emotional and physical toll of caregiving when her father battled cancer and her mother—while managing her own health—became his primary caregiver. After Ali's father passed due to a heart attack, he became the primary caregiver for his mother. These experiences reinforced their commitment to advocating for better support for seniors and their loved ones.
