

AsiaRF Launches WiBravo: 4G LTE Body-Worn Cameras & HaLow Gateway Discounts

NEW TAIPEI CITY, TAIWAN, June 16, 2025 /EINPresswire.com/ -- [AsiaRF](#), a global leader in wireless communication technology, proudly announces the launch of its new product brand, WiBravo, dedicated to advanced body-worn cameras and video-focused devices. The official launch is set for July 1, 2025, marking a major step in delivering real-time, high-quality video solutions for security, law enforcement, and enterprise applications.

WiBravo demonstrates AsiaRF's commitment to innovation and customer focus. With live 4G LTE video and advanced features, it enables frontline professionals to work safer and more effectively."

Paul Lai, CEO of AsiaRF

To celebrate this milestone, AsiaRF will hold a limited-time promotion from June 16 to July 15, 2025, featuring exclusive discounts on its popular [HaLow](#) Gateways — providing an excellent opportunity to upgrade to next-generation long-range, low-power wireless connectivity for IoT solutions.

Introducing the WiBravo [Body-Worn Camera](#):
Live 4G LTE Streaming + Advanced Mobile Video Capabilities

The flagship WiBravo body-worn camera redefines mobile video technology by integrating 4G LTE live streaming, enabling users to transmit high-definition footage instantly to command centers or remote teams. This empowers real-time decision-making and coordinated response during critical operations.

Key Features:

- 4G LTE Live Video Streaming – Real-time HD video transmission for improved situational awareness
- Full HD 1080p Recording – Clear, detailed footage for documentation and evidence
- Push-to-Talk (PTT) Communication – Instant voice communication for efficient coordination
- 11-Hour Battery Life – Extended usage for long shifts
- Infrared Night Vision – Reliable recording in low-light or no-light conditions
- One-Touch SOS Alert – Emergency notifications with location data
- Rugged, Lightweight Design – Built for tough environments and comfortable wear

WiBravo offers a dependable, field-ready solution that enhances safety, accountability, and operational effectiveness.

Limited-Time Promotion:

From June 16 to July 15, AsiaRF is offering:

Special discounts on HaLow Gateways, optimized for long-range, low-power wireless IoT communication perfect for scalable and robust industrial and remote connectivity applications.

About AsiaRF

AsiaRF is a pioneering provider of wireless communication modules and IoT connectivity solutions. With a mission to push the boundaries of wireless performance, AsiaRF continues to lead the way in delivering high-impact technologies for modern industries. The launch of the WiBravo brand reinforces its expanding footprint in mobile video and real-time communication solutions.
