

Key Market Driver In Cyclosporine Drugs Market Industry 2025: Surge In Organ Transplantation Driving The Growth Market

*The Business Research Company's
Cyclosporine Drugs Global Market Report
2025 – Market Size, Trends, And Forecast
2025-2034*

LONDON, GREATER LONDON, UNITED
KINGDOM, June 13, 2025

/EINPresswire.com/ -- There has been a
significant expansion in the

cyclosporine drugs market size in recent years. The detailed analysis suggests the market will grow from \$1.64 billion in 2024 to \$1.75 billion in 2025, at a compound annual growth rate CAGR of 6.6%. A surge in the geriatric population, an increase in cyclosporine usage for ophthalmic treatments, a growing number of cyclosporine-based clinical trials, enhanced government

support for drug research and development, and a surge in healthcare spending have stimulated this robust growth in the historic period.

What Is The Projected Future Growth Of The Cyclosporine
Drugs Market?

A further uptick in the cyclosporine drugs market size is anticipated in the next few years, with the market expected to grow to \$2.23 billion in 2029 at a compound annual growth rate CAGR of 6.4%. Factors such as increasing prevalence of autoimmune diseases, growing cases of

organ transplantation, rising number of patients suffering from dry eye disease, and enhancing awareness about cyclosporine treatments coupled with an expanding healthcare infrastructure will contribute to this growth. There has been considerable progress in drug delivery systems, improvements in cyclosporine drug formulations, innovative non-preserved formulations for eye drops, development of generic cyclosporine drugs, and adoption of cyclosporine in veterinary medicine forecasted for the period.
