What Is The Projected Future Growth Of The Contraceptive
Drugs And Devices Market Size?

Forthcoming expansion of the contraceptive drugs and
devices market suggests a future rise in size to \$36.31
billion by 2029. A compound annual growth rate CAGR of
7.5% is predicted, influenced by trends like smart
contraceptive devices with digital tracking, biodegradable
implants and patches, hormone-free contraceptive

innovations, AI-driven fertility monitoring apps, and 3d printing of custom-fit contraceptive
devices. The market growth aligns with the rising demand for long-acting reversible
contraceptives and increasing focus on women's reproductive health. Moreover, the expansion
of e-commerce and telehealth access, prevalence of supportive healthcare policies, and
insurance coverage are also significant factors stimulating market growth.
