About the Rankings

Developed through a comprehensive review of over 90 U.S. agencies, the methodology assessed Clinical outcomes and IVF/live birth success rates, Surrogate placement speed, Licensing (NYS) and federal (FDA) oversight, Online reputation via Google reviews (avg. ~4.5/5), Operational longevity (46 agencies with 10+ years in business), Fee transparency, medical oversight, and legal safeguards

Agencies are stratified into four tiers to guide intended parents toward compliance, trust, and care.

Why We Created Tier Rankings

In surrogacy, licensing and/or FDA registration matters.

Without it, there's no way to know if an agency is real or just a website out to steal your money.

That's why New York State began licensing surrogacy agencies — and why we highlight licensed, physician-led, FDA-registered programs in Tier 1, Tier 2 and Tier 3.

□ Safety. □ Transparency. □ Accountability.
