

RobosizeME's Financial Reconciliation Suite Now Available on Oracle Cloud Marketplace

RobosizeME's solution automatically secures correct commission payments, reducing revenue leakage and eliminating manual processing.

PRAGUE, CZECH REPUBLIC, June 16, 2025 /EINPresswire.com/ --

RobosizeME, a leading provider of AI-enabled process automations tailored to the hospitality industry and an Oracle partner, today announced that their [Financial Reconciliation Suite](#) is available on [Oracle Cloud Marketplace](#), and integrates with OPERA Cloud via the Oracle Hospitality Integration Platform (OHIP). Oracle Cloud Marketplace is a centralized repository of enterprise applications offered by Oracle and Oracle partners.

Financial Reconciliation Suite Available on Oracle Cloud Marketplace

The Financial Reconciliation Suite enables daily extraction and analysis of OTA reservations after guest check-out. By analyzing the travel agent profile, reservation rate code, and status, the system determines commission eligibility and calculates amounts owed. On a weekly basis, it retrieves commission reports from OTA extranets and reconciles them against PMS data, flagging discrepancies in reservation details such as length of stay, status, and revenue.

“

Our mission is to eliminate the invisible revenue drain caused by overlooked discrepancies in OTA commissions. We're giving hotels a smart and scalable way to enforce financial accuracy,”
