

Reveive and Simon Ourian M.D. Debut First-Ever AI Skincare and Nutrition Experience

LONDON, UNITED KINGDOM, June 17, 2025 /EINPresswire.com/ -- [Reveive](#), a global leader in personalized digital brand experiences in beauty, skin, health and wellness, has partnered with Simon Ourian M.D. to launch the world's first AI-powered skincare and nutrition digital advisory solution. This unprecedented partnership makes the trusted expertise of Beverly Hills' most sought-after cosmetic dermatology doctor, [Dr. Simon Ourian M.D.](#), accessible to anyone, anywhere.

The world's first AI-powered skincare and nutrition digital advisory solution

Enhancing the credibility of this experience is the involvement of renowned cosmetic dermatology doctor, Dr. Simon Ourian M.D. As the visionary behind the iconic Epione clinic, Dr. Ourian M.D. is trusted by a roster of Hollywood's elite, including the Kardashian-Jenners, Megan Fox, Lady Gaga, and others. His work is defined by a unique approach that blends the precision of science with the beauty of art. With this launch, his bespoke routines for skincare and nutrition – once reserved for in-clinic consultations – are now available through a digital experience powered by Reveive's cutting-edge AI technology.

This collaboration marks a new standard for digital wellness journeys and AI-driven consultation processes. Reveive helped Simon Ourian M.D. to translate Dr. Simon's years of experience with patients into a digital tool that provides a personalized beauty and wellness product recommendation. Users begin by capturing a selfie and providing insights into their lifestyle and wellness goals. Leveraging Reveive's advanced AI Skincare and Nutrition Advisor, the platform analyzes this information to deliver tailored product recommendations and routines, offering a comprehensive approach to beauty and wellness.

The Secret Recipe, Now Digital

"Everyone is born with beautiful skin," says Dr. Simon Ourian M.D. For over two decades, he's delivered on that belief through personalized treatment plans that combine advanced dermatology with holistic wellness. Now, users can access that same philosophy through a fully

digital consultation that mimics the experience of visiting his clinic.

The tool analyzes each user's skin condition and wellness needs using a selfie and a short questionnaire, delivering a tailored skincare and supplement routine in minutes at no cost. This launch democratizes access to expert beauty and wellness insights, presenting a 360-degree approach to personal care.

"This is more than just a digital tool—it's a fully immersive experience that provides tailored product recommendations based on your skin and wellness data," said Dr. Simon Ourian M.D. "Our community is hungry for credible, intuitive solutions, and with Revieve, we're delivering exactly that."

The First of Its Kind: Beauty and Wellness Combined

What makes this experience truly revolutionary is its dual focus on both skincare and nutrition. While other digital tools focus solely on external care, the Simon Ourian M.D. experience recognizes that glowing skin starts from within.

While skincare remains a core pillar of the Simon Ourian M.D. brand, nutrition is now center stage as the company introduces this new product category to meet growing consumer demand for holistic wellness. These carefully crafted daily supplements are designed to support everything from gut wellness to glowing skin—backed by data, tested by nutritionists, and now discoverable through the AI Skincare and Nutrition Advisor.

"This partnership is a milestone not only for us but for the entire industry," said Sampo Parkkinen, CEO of Revieve. "By combining Dr. Simon Ourian M.D.'s world-class dermatological insight with Revieve's proprietary AI-driven personalization platform, we're offering something no one else has: a truly holistic beauty and wellness advisor that's personalized, digital, and completely accessible."

Experience Personalized Beauty & Wellness, Anytime, Anywhere

Dr. Simon Ourian's AI Analysis [is now exclusively accessible online](#). The premium virtual experience is currently available to consumers across Europe – including the Netherlands, France, Germany, Italy, Portugal, Spain, Poland, Sweden, Switzerland, Belgium and the United Kingdom – and will soon launch in the US.

How it Works:

START WITH YOU – Answer a few questions to guide the AI solution in understanding your skin and wellness goals

SNAP A SELFIE – An optional but powerful step for a visual skin analysis powered by over 100 diagnostic markers

GET YOUR RESULTS – Receive a tailored skincare and nutrition plan built for your unique needs
