Digital Assistants In Healthcare Market Report 2025 -
Market Size, Trends, And Global Forecast 2025-2034

The global digital assistants in healthcare market has seen an exponential boost in recent years. From \$1.48 billion in 2024, the market size is anticipated to swell to \$1.91 billion in 2025, with a

compound annual growth rate CAGR of 29.1%. The significant growth in the historical period can be attributed to the increasing demand for personalized healthcare, a surge in healthcare data, the growing need for efficient healthcare delivery, the aging population, and healthcare cost reduction.

What Are The Key Drivers Propelling The [Growth Of The Digital Assistants In Healthcare Market](#)?

A leading catalyst propelling the growth of the digital assistants in healthcare market is the increasing demand for personalized healthcare services. Personalized healthcare refers to medical care that is tailored to an individual's genetics, lifestyle, and medical history for more accurate and effective treatment. This includes personalized medicines, customized treatments, diagnostics, and wellness plans.

Thanks to advancements in genetic research, there has been a significant increase in personalized healthcare, enabling more targeted and effective treatments tailored to an individual's genetic profile. Digital assistants in healthcare further enhance personalized healthcare services by delivering tailored health information and support through AI-driven interactions. Such assistants streamline patient engagement by automating symptom checking and appointment scheduling, thereby improving care accessibility and efficiency.

[What Key Player Strategies Are Driving The Digital Assistants In Healthcare](#) Market?

Supreme market players in the digital assistants in healthcare market include Amazon.com Inc., Apple Inc., Google LLC, Samsung Electronics Co. Ltd, Microsoft Corporation, IBM Corporation, Siemens Healthineers AG, Koninklijke Philips N.V., GE HealthCare Technologies Inc., Babylon Holdings Limited, Verint Systems Inc., eGain Corporation, Suki Inc., Ada Health GmbH, K Health Inc., Infermedica Sp. z o.o, Your.MD Ltd, Fabric Labs Inc., Mediktor, and MediSprout.
