

30 Years On, The 1888 Co. Reinvents Strata Services for a New Era in Sydney and the South Coast

SYDNEY, NEW SOUTH WALES, AUSTRALIA, June 17, 2025 /EINPresswire.com/ -- Surpassing 30 years in service, [The 1888 Co.](#) is reshaping its operations to meet the evolving needs of property owners and residents across Sydney and the South Coast.

Established in 1993, The 1888 Co. is a family-owned and operated business with a longstanding presence in strata management. Over the past three decades, the company has adapted to industry changes while maintaining a consistent focus on direct service and client engagement.

The 1888 Co. is notable for its distinctive name, selected to reflect a historical connection to the evolution of modern multi-unit buildings. Drawing from research on the origins of skyscraper construction, the company traces its name to the late 1880s, a period of architectural and urban transformation marked by the rise of high-rise buildings in the United States. The term "skyscraper" entered public use by 1888, and the firm chose this moment as a symbolic reference point for its own foundation and identity.

In Australia, multi-storey building development came later, with the first skyscraper, Australia Square in Sydney, completed in 1967. By aligning its brand with the early international history of vertical living, The 1888 Co. underscores its commitment to a long-term vision in strata

management.

As part of its evolution, The 1888 Co. continues to refine its internal systems for managing repairs, levy queries, and general enquiries. Residents and property stakeholders can access services via the company's online logging system, designed to ensure timely responses and clear communication.

With growing interest in regional property and renewed attention to strata governance, The 1888 Co. is positioned to contribute meaningfully to the changing residential landscape in New South Wales.

About The 1888 Co.

The 1888 Co. is a family-run strata management firm serving Sydney and the South Coast. Operating since 1993, the company provides strata services with a focus on responsiveness and historical awareness, drawing its name from the year skyscrapers emerged as a defining feature of modern urban development.
