

TuxCare Announces Endless Lifecycle Support for Red Hat Enterprise Linux 7

PALO ALTO, CA, UNITED STATES, June 18, 2025 /EINPresswire.com/ -- [TuxCare](#), a global innovator in securing open source, today announced it launched its [Endless Lifecycle Support](#) (ELS) for Red Hat Enterprise Linux 7, bringing an affordable, precision-engineered support solution that allows organizations to easily secure their RHEL infrastructure significantly past its end of life.

TuxCare

Delivering timely high and critical severity security for as long as needed, the latest TuxCare ELS allows organizations to remain vendor-supported without the need to invest in the dual hefty cost of an active RHEL Enterprise subscription as well as Red Hat's Extended Lifecycle Support.

"TuxCare's goal is to cost-effectively keep organizations free from the resulting unpatched vulnerabilities and compliance gaps that come with the EOL of RHEL 7," said Michael Canavan, Chief Revenue Officer at TuxCare. "This new Endless Lifecycle Support for RHEL 7 removes the potentially high costs and worries that would otherwise stand as a notable hurdle in many enterprises. After all, there's little other choice but to upgrade to a supported version or switch to another alternative. This ELS quickly and efficiently puts an organization in charge of their next moves instead of outside forces."

Eliminating any need for any untimely or costly upgrades, TuxCare's ELS for RHEL 7 delivers what's needed, when it's needed. For more information visit: <https://tuxcare.com/endless-lifecycle-support/red-hat-7-eol-support>
