With ample outdoor space, including a specially engineered balcony, to provide shelter from the elements in Florida's subtropical climate, the penthouse enhances indoor- outdoor living. Cutting through this stretch of seafront's characteristic gusty winds, even a candle can be lit from the terrace without going out.

[Bentley Home](#) has created an exquisite, optional interiors concept for the penthouse buyer, utilising sod, natural palette and materials that blend with the beachside environment visible from its floor-to-ceiling windows. With high ceilings, comfortable living space and a multitude of bedrooms and bathrooms, this Penthouse is the ideal home for a family or resident who enjoys hosting.

A TOUR OF THE PENTHOUSE

Arriving to the penthouse via the private elevator foyer – either via the passenger or car elevator – one is greeted by 22 d ceilings that create an airy ambiance. The penthouse unfolds into two interconnected realms: an innovatively-designed living area with uninterrupted panoramas and a gallery-inspired space, with a view into the car garage, integrated as a work of art.

Four bedrooms, seven bathrooms, a powder room, a study, entertainment lod and state-of-the-art kitchen complete with Gaggenau appliances, provide comfortable space for living, working and entertaining. Service quarters are also offered to maximise both convenience and

opportunities for a smooth hosting experience.

Private indoor and outdoor pools create a seamless connection between the interior and exterior space. A sunset terrace and summer kitchen – perfect for al fresco dining – complete the outdoor oasis.

A CLOSER LOOK

A long-running collaboration between Bentley and [Luxury Living Group](#), Bentley Home offers a collection of stunning furniture pieces, each one inspired by the flowing lines of Bentley's cars. Influenced by the beautiful architecture of Bentley Residences Miami, Bentley Home has designed an optional, unique furnishing concept for the penthouse, mapping out an interior design scheme and combination of furniture pieces to complete the property.

Soaring double-height ceilings and airy open spaces complement Bentley Home's interior design concept for the Penthouse. Natural stone and high-quality oak flooring and walls are accented by transparent crystal panels to create a sense of lightness. Light floods the space through floor-to-ceiling windows to create an atmosphere of deliberate calm and refined serenity. The design concept captures the timeless elegance of Art Deco, subtly woven throughout the interior, evoking the spirit of Miami's architectural legacy. Colours are neutral, textures are soft, and all materials are harmonised throughout - creating a sophisticated effect. Curving walls further enhance the flow of the space, adding a timeless yet graceful quality to each room. A magnificent floating staircase is a highlight within Bentley Home's penthouse design concept. Each corner of both the indoor and outdoor penthouse space offers a sanctuary of elegance, light and luxury. This conceptual design has been created to inspire customers, and the furniture and interior design services are available for Bentley Residences customers to access.

AT HOME IN BENTLEY RESIDENCES

With access via the Dezervator – a patented vehicle elevator – penthouse residents can arrive home to the top storey without even getting out of the car, with in-unit, glass-enclosed garages and EV charging points for up to seven cars, making it the perfect home for car collectors. The building itself features a host of amenities, including: a wellness centre, a spa, a games room, a whisky bar, cigar lounge, cinema, a pet spa, a beauty salon, and exclusive residents-only restaurant and dining concepts. 2.4 acres of beach, a lushly landscaped beach club, oceanfront pool deck, complete with beachfront cabanas grace the front of the property. The development is set to complete in 2028.

The starting price for Penthouse is 37.5 Million (USD), with Bentley Home interior design services as an optional extra.
