

# Applogika Achieves AWS Generative AI Services Competency Partner Status

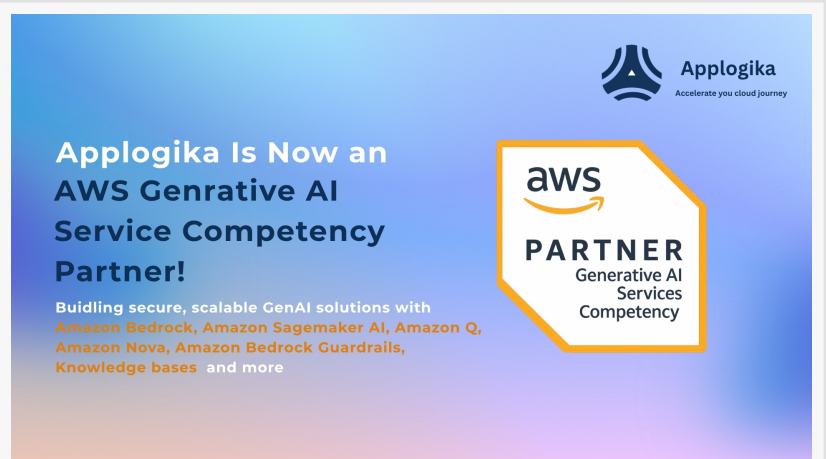

LANDSDALE, PA, UNITED STATES, June 17, 2025 /EINPresswire.com/ --

[Applogika](#) is proud to announce that it has achieved the "AWS Generative AI Services Competency Partner" status, becoming part of a select group of organizations recognized by Amazon Web Services (AWS) for deep technical expertise and demonstrated customer success in delivering Generative AI-powered software solutions on AWS.

This designation validates Applogika capabilities in helping enterprises architect, develop, and scale secure, high-performance Generative AI solutions tailored to industry-specific use cases.

Proven Generative AI Expertise, Built on AWS - Applogika has a strong track record of delivering Generative AI solutions using key AWS services, including:

- Amazon Bedrock for foundation model access and orchestration
- Amazon SageMaker for custom model training and deployment
- Amazon Titan, Amazon Nova and third-party Large Language Models (LLM's)
- Amazon Knowledge bases for quick and efficient Retrieval Augmented Generation (RAG)
- Amazon OpenSearch Service, Aurora PG Vector and other vector databases for semantic

search and retrieval

- Amazon Bedrock Agents ,AWS Strands Agents for building modular, multi-agent LLM workflows with planning, reasoning, and tool execution
- Amazon Bedrock Guardrails to implement safety & responsible AI

Applogika solutions range from:

- Intelligent agents and enterprise knowledge assistants
- Retrieval-Augmented Generation (RAG) architectures
- Domain-specific LLM pipelines
- AI-enhanced decision systems embedded within existing digital workflows
- Agentic AI

All applications are built with strict adherence to security, scalability, and compliance best practices, ensuring enterprise-grade governance and data privacy from day one.
