

EHS Insight Launches Powerful AI Copilot Expansion and Productivity-Boosting Upgrades

HOUSTON, TX, UNITED STATES, June 18, 2025 /EINPresswire.com/ -- [EHS Insight](https://www.ehsinsight.com/), the leading provider of EHS and ESG software solutions, today announced the release of a major platform update that significantly expands the platform's AI capabilities and delivers a series of enhancements focused on speed, usability and smarter safety management.

At the core of this release is a major expansion of the EHS Insight Copilot, now fully embedded into forms like Training Requirements, Incident Events, and JSA Templates. Users can chat with Copilot to get instant insights, summaries, and next-step recommendations. With smarter suggested prompts, persistent conversations that update with new data, and a reset option to start fresh, the upgraded Copilot delivers faster, sharper, and more intelligent support—powered by enhanced OpenAI models built for real-world safety use.

“

Our customers are already seeing meaningful results from the EHS Insight Copilot.”

Gary McDonald

“Our customers are already seeing meaningful results from the EHS Insight Copilot,” said Gary McDonald, Founder and CEO of EHS Insight. “The feedback has been overwhelmingly positive. Teams are saving time, moving faster, and trusting the built-in EHS professional they get in a partner like Copilot. It’s more than just AI—it’s an expert assistant right inside the platform.”

EHS Insight

Leverage Predictive Data

This release underscores EHS Insight's ongoing commitment to innovation, delivering real-world solutions that make it easier for safety professionals to do their jobs more effectively.

About EHS Insight

EHS Insight is the world's most comprehensive EHS and ESG software platform, helping organizations of all sizes achieve their safety, compliance, and sustainability goals.
