

New Book The Wisdom Keepers: A Shamanic Text Offers Channeled Spiritual Guidance To Readers

ROME, LAZIO, ITALY, June 17, 2025

[/EINPresswire.com/](https://EINPresswire.com/) -- A new book, *The Wisdom Keepers: A Shamanic Text* by Marcia Lewis, has been released. It is a collection of spiritual wisdom channeled from a collective of non-physical entities known as The Wisdom Keepers. The text aims to provide guidance and insight into shamanic practices and spiritual understanding for contemporary readers seeking deeper connection and knowledge.

Authored by Marcia Lewis, the book draws on her personal spiritual journey, which she describes as beginning in childhood. Lewis, who also identifies with the spiritual name Mother Ishwin, states her life's purpose is one of service, and this book is presented as a key part of that mission. The book's acknowledgment section indicates a collaborative effort between Lewis and We, the Wisdom Keepers, showcasing the channeled nature of the content.

The *Wisdom Keepers* explores spiritual themes and concepts, offering

perspectives on life and consciousness from a purportedly higher collective intelligence. The book discusses ideas such as the human need for a spiritual quest, the concept of a Cry for Help in seeking spiritual assistance, and descriptions of spiritual healing modalities like Re-Webbing. It also touches upon the nature of spiritual worlds and the roles of various spiritual guides and

entities.

The content is intended for individuals interested in spirituality, shamanism, channeled wisdom, and exploring alternative viewpoints on existence and healing. It seeks to act as a resource for those walking their own spiritual paths and seeking connection to deeper, timeless insights.

The book's release introduces a text that aligns with traditions of receiving knowledge from spiritual realms, interpreted and transcribed by a human conduit. It allows readers to engage with teachings presented as originating from a source beyond the material world, focused on spiritual growth and enlightenment.
