COVID-19 Scenario:

The car care product market experienced a negative impact due to the prevalence of lockdowns in numerous countries across the globe.

As a result of lockdowns, the automotive industry suffered a serious blow due to the decrease in car sales during the pandemic, which in turn, adversely impacted the sales of car care products.

Various manufacturing facilities were closed during lockdowns. Besides, ban on the import and export of raw materials led to supply chain disruptions.

These restrictions were imposed by the government to significantly limit the spread of the virus

during the pandemic. However, the market is expected to recoup with eased restrictions.

The report offers detailed segmentation of the global [car care product industry](#) based on product type, solvent, vehicle type, distribution channel, sales channel, and region. The report provides a comprehensive analysis of every segment and their respective sub-segment with the help of graphical and tabular representation. This analysis can essentially help market players, investors, and new entrants in determining and devising strategies based on the fastest growing segments and highest revenue generation that is mentioned in the report.

Based on solvent, the water-based solvent segment held the dominating market share in 2021, holding more than three-fifths of the global market, and is expected to maintain its leadership status during the forecast period. In addition, the same region is expected to cite the fastest CAGR of 6.1% during the forecast. The report also analyses other segments of the market such as the foam-based segment.

Based on application, the interior segment held the largest market share in 2021, garnering more than half of the global market, and is expected to maintain its leadership status during the forecast period. The exterior segment, on the other hand, is expected to cite the fastest CAGR of 6.2% during the forecast period.

Based on vehicle type, the passenger cars segment held the dominating market share in 2021, garnering more than two-thirds of the global market, and is expected to maintain its leadership status during the forecast period. The light commercial vehicles segment, on the other hand, is expected to cite the fastest CAGR of 6.8% during the forecast period.

Based on sales channel, the B2B segment held the dominating market share in 2021, holding nearly three-fourths of the global market, and is expected to maintain its leadership status during the forecast period. The B2C segment, on the other hand, is expected to cite the fastest CAGR of 6.4% during the forecast period.

Based on region, the market across the Asia-Pacific region held the largest market share in 2021, garnering nearly three-fifths of the global market, and is expected to maintain its leadership status during the forecast period. The LAMEA region, on the other hand, is expected to cite the fastest CAGR of 8.5% during the forecast period.
