

# Professionals around the world are validating their Automation Testing skills through EdChart

*A growing number of professionals are gaining global recognition through EdChart's Automation Testing Certification and Credly digital credentials.*

TEXAS, TX, UNITED STATES, June 23, 2025 /EINPresswire.com/ -- Across the global tech landscape, increasing numbers of professionals are turning to EdChart's Automation Testing Certification to gain validated skills and professional recognition. With digital badges backed by Credly, the certification has become a compelling option for software developers, job

seekers, QA professionals, and freelancers looking to prove their automation expertise in a competitive environment. The certification process focuses on practical competency rather than traditional learning paths. By offering exams without prerequisites and using a "pay after you

“  
Professionals around the world are validating their Automation Testing skills through EdChart's trusted "Pay After You Pass" exam model—powered by global credentialing partner, CREDLY.”

*Lakshmi Narayanan - JLN*

The advertisement features a woman in a business suit holding a 'Certificate of Achievement' from EdChart. The certificate is for 'Amelia' and is for 'Automation Testing Certification'. To the right of the woman, the EdChart logo is displayed with the tagline 'Universal path to success'. Below the logo, the text 'AUTOMATION TESTING CERTIFICATION' is written in bold. Underneath this, a list of five certifications is shown, each with a corresponding icon: Playwright Testing Certification (green shield), Selenium Testing Certification (blue 'Se' icon), Cypress Testing Certification (blue 'cy' icon), Loadrunner Testing Certification (blue 'LR' icon), and JMeter Testing Certification (blue 'J' icon). Below the list, the text 'START YOUR CERTIFICATION JOURNEY TODAY' is written in bold. At the bottom right, the website 'WWW.EDCHART.COM' is displayed in a red box.

Get Globally Certified in Automation Testing Certification with EdChart – Online Exam, Pay After You Pass Model, and Credly-Backed Digital Badge for Career Growth.

pass" approach, EdChart has expanded access to career-enhancing credentials. Millions globally are benefiting from these certifications, many of which are recognized by top technology firms and Fortune 500 companies. The growing trust in the platform is attributed to its impartial exam-based assessment and the portability of digital credentials via Credly. Professionals use these credentials to improve hiring prospects, boost freelance credibility, and demonstrate proficiency in specific tools and frameworks.

#### QTP-UFT Certification

Establish your credibility in test automation with the QTP-UFT Certification. This certification measures your expertise in functional and regression testing using Micro Focus UFT (formerly QTP). It is ideal for automation engineers aiming to validate their testing skills.

Visit us -

<https://www.edchart.com/certificate/otp-upt-certification-online-programs>

Earn Your LoadRunner Testing Certification with EdChart – 100% Online, Globally Recognized Credential Backed by Credly, Designed for Performance Testing Professionals.

#### TestComplete Testing Certification

Demonstrate your command of GUI testing with the TestComplete Certification. This exam validates your ability to create, manage, and execute automated tests across desktop, web, and mobile platforms, empowering you to pursue roles in advanced test automation.

Visit us - <https://www.edchart.com/certificate/testcomplete-testing-certification-exam-free-test>

#### Ranorex Studio Certification

Gain international recognition for your test automation skills with the Ranorex Studio Certification. This certification validates your proficiency in building automated tests for desktop, web, and mobile applications using Ranorex Studio.

Visit us - <https://www.edchart.com/certificate/ranorex-studio-certification-exam-free-test>

#### Capybara Testing Certification

Prove your skills in web application testing using the Capybara framework with this specialized certification. Ideal for Ruby developers and testers, it assesses your capability in writing readable and robust integration tests.

Visit us - <https://www.edchart.com/certificate/capybara-testing-certification-exam-free-test>

### Espresso Testing Certification

Certify your expertise in Android UI testing with the Espresso Testing Certification. This exam validates your ability to automate and verify user interactions within Android apps, helping mobile testers and developers advance their careers.

Visit us - <https://www.edchart.com/certificate/espresso-testing-certification-exam-free-test>

### Postman Testing Certification

Highlight your skills in API testing with the Postman Testing Certification. This certification evaluates your ability to test RESTful APIs, automate workflows, and ensure robust backend services, essential for today's QA engineers and backend testers.

Visit us - <https://www.edchart.com/certificate/postman-testing-certification-exam-free-test>

### NUnit Testing Certification

Demonstrate your mastery in unit testing for .NET applications with the NUnit Certification. This program assesses your ability to create structured, repeatable, and effective test cases using NUnit, enhancing your reputation as a skilled software tester.

Visit us - <https://www.edchart.com/certificate/nunit-testing-certification-exam-free-test>

### OpenSTA Testing Certification

Get certified in performance testing with OpenSTA and validate your skills in scripting, test execution, and performance analysis of web applications. Ideal for QA professionals specializing in load testing and system performance validation.

Visit us - <https://www.edchart.com/certificate/opensta-testing-certification-exam-free-test>

### Java Selenium Automation Testing Certification

This certification verifies your skills in using Selenium with Java for automation testing of web applications. Ideal for QA professionals and Java developers, it helps enhance employability in software testing roles and test automation projects.

Visit us - <https://www.edchart.com/certificate/java-selenium-automation-testing-exam-free-test>

### Python Selenium Automation Testing Certification

Showcase your automation skills using Selenium with Python through this specialized certification. It validates your ability to automate test scripts, work with dynamic elements, and perform efficient test case execution. Ideal for QA engineers and Python developers.

Visit us - <https://www.edchart.com/certificate/python-selenium-automation-testing-exam-free-test>
