Railway Cybersecurity Market Outlook : Protecting Critical Infrastructure Towards $14,687.8 Million by 2030 (7.0% CAGR)

WILMINGTON, NEW CASTLE, DE, UNITED STATES, June 19, 2025 /EINPresswire.com/ -- As per the report published by Allied Market Research, The global railway cybersecurity market was valued at $7,728.5 million in 2020, and is projected to reach $14,687.8 million by 2030, registering a CAGR of 7.0%.

Rise in demand for passenger and freight capacity, increase in number of cyber-attacks, and surge in number of railway projects across the world drive the global railway cybersecurity market. However, high installation cost hinders the market growth. On the contrary, improvement in railway infrastructure and rise in strategic partnership with rail operators and services are expected to unlock opportunities for the market players in the future.
