

LuggageToShip.com Launches AI-Powered Global Shipping Marketplace

Like Expedia for booking and Uber for moving — compare, book, and track shipments worldwide in minutes.

PALO ALTO, CA, UNITED STATES, August 12, 2025 /EINPresswire.com/ --

LuggageToShip.com, an award-winning, partner-backed global mobility platform powered by PayToMe.co, today announced the launch of the world's first all-in-one AI-powered SaaS marketplace for shipping and storage — seamlessly integrating trusted carriers like FedEx®, DHL®, UPS®, and USPS® into the travel experience.

Much like Expedia transformed booking and Uber redefined on-demand transport,

“

We're not just shipping luggage—we're redefining mobility. Our platform lets people travel light, live freely, and ship smarter worldwide.”

LuggageToShip.com

LuggageToShip.com enables travelers, students, families, and businesses to compare, book, and manage shipments worldwide in minutes — without handling a single bag.

Why Now — A Market Ready for Disruption

Global travel is booming, international student enrollment is at record highs, and remote work is fueling cross-border mobility. Yet shipping belongings remains slow, expensive, and fragmented. While major carriers like FedEx®, DHL®, UPS®, and USPS® provide exceptional delivery services,

there has been no unified marketplace to seamlessly compare real-time rates, optimize routing, and integrate both short-term storage and door-to-door delivery — until now.

LuggageToShip.com closes that gap — making global mobility as simple as booking a flight.

Platform Highlights

AI Rate Engine – Real-time price comparison, smart routing, and packaging optimization using machine learning.

Global Carrier Partner Network – FedEx®, DHL®, UPS®, USPS®, and growing partnerships with regional and international operators.

End-to-End Use Cases – Luggage, boxes, golf clubs, skis, relocation goods, and enterprise logistics.

White-Label API – For travel agencies, universities, conferences, trade shows, resorts, relocation services, and e-commerce platforms.

Storage + Shipping – Combine warehousing with direct delivery for complete flexibility.

Empowered by PayToMe.co — The AI Fintech Backbone

The platform is powered by PayToMe.co, an award-winning AI-native fintech recognized as a Semi-Finalist in Pepperdine's Most Fundable Companies® 2025, a selected AWS Strategic Partner, a member of the NVIDIA Inception Program's top 1% of AI startups, and a partner of Plaid, Stripe, and IBM Partner Plus.

PayToMe.co's embedded finance infrastructure delivers:

- Secure payments and text-to-pay
- Multi-currency settlements in 220+ countries
- AI-driven invoicing and fraud prevention
- Real-time financial reporting for users and partners

The image shows a mobile app interface for LuggageToShip.com. The app displays a 'Worldwide Luggage Shipping' form with fields for 'From' (United States (USA)), 'To' (United States (USA)), 'Shipping Date', and 'Select item(s)'. Below the form are three luggage options: Small Luggage (22" x 15" x 11", 25 lbs / 11 kg), Medium Luggage (28" x 18" x 11", 35 lbs / 16 kg), and Standard Luggage (30" x 19" x 12", 50 lbs / 23 kg). To the right of the app interface are four service categories: Luggage, Boxes, Golf Bags, and Skis & Snowboards, each with an icon. The LuggageToShip.com logo is in the top right corner, and the website URL www.LuggageToShip.com is at the bottom.

LuggageToShip.com Anywhere

The image is a travel-themed advertisement for LuggageToShip.com. It features a person wearing a backpack and a hat, standing on a beach with their arms outstretched, looking out at the ocean. A yellow suitcase is next to them. The background is a bright blue sky with white clouds. The text 'We Deliver Your Luggage Anytime Anywhere' is prominently displayed in the center. The LuggageToShip.com logo is in the top left corner, and the website URL www.luggagetoship.com is in an orange banner at the bottom.

Travel with LuggageToShip.com

This deep fintech integration transforms LuggageToShip.com from a shipping tool into a full-service commerce enabler — allowing customers to book, pay, and track shipments without friction.

Why LuggageToShip.com Stands Out

Unlike single-carrier services, LuggageToShip.com operates as an unbiased logistics marketplace, ensuring users get the best rates and fastest delivery. Its AI-powered learning system analyzes data points to optimize carrier selection and reduce costs — just as Uber's algorithm matches riders and drivers for efficiency.

Beyond Travel — A Universal Mobility Solution

Students – Ship belongings to dorms without excess airline baggage fees.

Families – Relocate domestically or internationally with minimal hassle.

Sports Travelers – Send golf clubs, skis, or surfboards without hauling them.

Businesses – Manage event and corporate logistics from one dashboard.

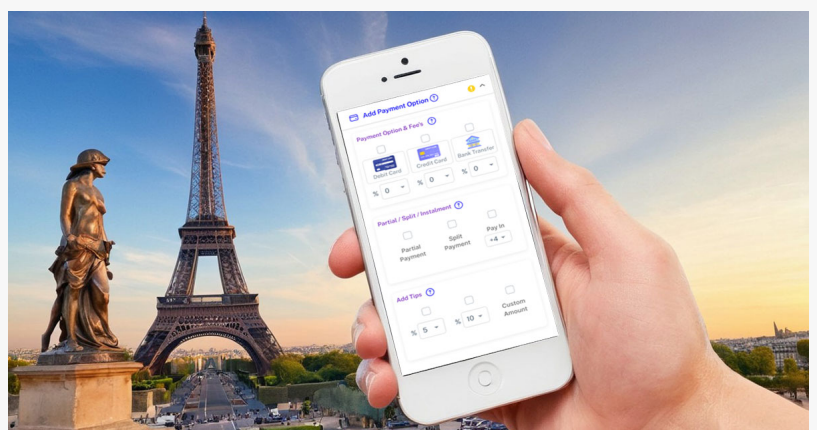

Strategic Growth & Partnerships

In addition to its global carrier alliances, LuggageToShip.com is expanding integrations with major travel booking platforms, along with universities, relocation companies, conference/trade show organizers — enabling customers to add “Ship My Belongings” at checkout when booking both personal and professional travel.

The Future of Global Mobility

“We’re reimagining travel — not just moving people, but moving their lives,” said Mike Ulker, CEO and Founder of LuggageToShip.com. “By combining AI logistics intelligence with embedded fintech, we’ve made global mobility as easy as booking a hotel room.”

The next generation of travel and logistics is frictionless, AI-powered, and platform-driven.

Text-to-pay wherever you Travel

LuggageToShip.com and PayToMe.co= Partners

Travelers, students, businesses, and platform partners can experience the future of global mobility today. Visit www.LuggageToShip.com to compare prices, book shipments, and track your belongings worldwide in minutes.
