CloudIBN helps reduce security headaches through an intuitive, efficient VA&PT process.

Security Doesn't Have to Be Stressful
Many US organizations struggle with fragmented testing tools, manual tracking, and overwhelming reports that create more questions than answers. CloudIBN's VA&PT Services simplify everything by:
1. Offering end-to-end managed testing from discovery to remediation support
2. Consolidating vulnerabilities from across systems into one easy-to-prioritize view
3. Integrating VA & PT AUDIT Services for compliance documentation and audit readiness
4. Providing continuous guidance to make security an ongoing, repeatable process
5. Delivering developer-friendly insights that reduce time to fix

CloudIBN's Streamlined VA&PT Workflow
Security should fit your business—not disrupt it. CloudIBN's workflow ensures minimal impact, maximum clarity:
1. Initial Discovery: Understand business goals, system scope, and risk appetite
2. Automated Scans: Quickly detect known vulnerabilities across endpoints, servers, web/mobile apps
3. Manual Pen Testing: Ethical hackers simulate real-world attacks for deeper insights
4. Prioritized Reporting: Clear ranking by threat level, business impact, and compliance relevance

5. Remediation Support: Hands-on guidance to help your teams resolve issues quickly
6. VA & PT AUDIT Services: Detailed documentation for internal teams, auditors, and regulators
This tested framework ensures security remains efficient and outcome-focused—without bogging down IT or DevOps teams.

Why Choose CloudIBN?
1. US-Based Expertise: Localized threat models and compliance alignment 2. Automation + Expertise: Smart tools plus human testing for full-spectrum coverage
2. Simplified Reports: Easy-to-read dashboards and summaries, not 200-page PDFs
3. Custom Engagements: Choose what to test, when, and how often
4. Trusted by Enterprises: Proven results across industries from tech to healthcare
