“The MSP 501 is more than a ranking—it's a reflection of

the innovation, operational excellence, and customer-first mindset that drives the world's top managed service providers forward. Earning a place on this list signals to customers, partners, and the broader tech community that these MSPs are setting the pace for the industry and defining what success looks like in today's complex technology landscape," said Robert DeMarzo, Sr. Director of Informa Channels events and digital content.

MSPs that qualify for the list must also pass a rigorous review conducted by the Channel Partners research team and editors. Channel Partners ranks applicants using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue, and operational efficiency.

"At Exigent Technologies, we've built our success by forging genuine partnerships and delivering technology solutions that empower our clients to thrive," said Daniel Haurey, founder and president of Exigent.
