

# Copperloy Ramps Support Touring Bands with Practical Stage and Transport Solutions

*As the music industry continues to demand efficient and secure transport, Copperloy has become a go-to choice for bands requiring dependable loading ramps.*

TWINSBURG, OH, UNITED STATES, June 20, 2025 /EINPresswire.com/ -- As live events and touring schedules ramp up across the country, Copperloy, a leading U.S. manufacturer of loading dock equipment and [heavy duty van ramps](#) is seeing increased demand for its portable ramp solutions within the music and entertainment industry. Designed to assist with the movement of equipment during live performances, Copperloy's ramps are helping bands and road crews address logistical challenges both on tour and backstage.

Copperloy's van ramps and [stage ramps](#) are now being used by several touring acts and event production crews to improve safety and efficiency when moving heavy gear between vehicles and performance spaces.

## Enhancing Equipment Handling on the Road

Touring professionals have noted the importance of having dependable equipment that meets the pace of travel and performance demands. Copperloy's van ramps feature a non-slip surface and 4,000 lb. weight capacity, enabling secure transfer of instruments, lighting rigs, and sound equipment from vans or trailers to venue entry points. Their heavy-duty design offers stability on

a variety of surfaces and in unpredictable weather conditions, reducing delays and accidents during load-in and breakdown.

### Improving Access in Live Performance Environments

In fast-paced stage environments, crews often work within limited time windows. Copperloy's stage ramps offer a portable, high-strength solution for navigating the space between loading areas and elevated platforms. Their application helps ensure a smoother and safer flow of equipment, allowing technicians to focus on performance readiness.

### Responding to the Needs of Touring Crews

This growing interest from the entertainment industry highlights how industrial-grade equipment can support creative sectors where efficiency, reliability, and safety are key. Copperloy continues to engineer products that align with these values, responding to feedback from production teams and artists alike.

“Our mission has always been to provide dependable loading solutions,” said a spokesperson for Copperloy. “Seeing our ramps used in music venues and at live shows speaks to their versatility and the evolving needs of industries beyond warehousing.”

### About Copperloy

Copperloy is an American manufacturer of loading dock equipment and [yard ramps](#) based in Twinsburg, Ohio. For over 70 years, the company has produced high-performance ramps, dock boards, and material handling solutions built for safety, durability, and ease of use. Copperloy equipment is used nationwide across industrial, commercial, and now entertainment applications.
