

# Biohackers World Conference and Expo Comes to Chicago for the First Time

*Two-Day Event at Sofitel Chicago Magnificent Mile  
Explores the Future of Health and Human Potential*

CHICAGO, IL, UNITED STATES, June 23, 2025 /EINPresswire.com/ -- The Biohackers World Conference and Expo is coming to Chicago for the very first time, bringing together scientists, wellness experts, and health innovators for a two-day event focused on the future of health, performance, and longevity. Hosted at the Sofitel Chicago Magnificent Mile, the event invites everyone, from curious beginners to experienced practitioners, to explore the fast-growing world of biohacking in an open and welcoming environment.

The event is supported by title sponsors [Leela Quantum Tech](#) and [Pneuma Nitric Oxide](#), both leaders in science-backed wellness innovation.

Whether you're just getting started or already deep into health optimization, the conference is designed to offer value for all levels of experience. Sessions are structured to be accessible and informative for newcomers, while also offering advanced insights and tools for those more familiar with the space.

## Featured Speakers

Among the lineup of over 30 speakers, a few highlights include:

- Dr. Nathan Bryan – “Biohack Your Biology: Discover the Nitric Oxide Advantage”  
Dr. Bryan explains the essential role of nitric oxide in circulation, energy, and longevity, and how to naturally restore its production for better health.

- Philipp Samor von Holtzendorff-Fehling – “Unlocking Human Potential: Quantum Energy as a Key to Vitality, Consciousness & Longevity”  
The founder of Leela Quantum Tech shares how frequency-based tools may support both physical and emotional well-being.

- Kim Ressler – “Healthspan Optimization with One DNA-Tailored Nutritional Supplement”  
Discover how precision nutrition is reshaping the supplement world, with insights into how genetics-based personalization can improve long-term health.

- Kashif Khan – “Live to 120: Your Genetic Blueprint to Detoxing”  
Learn how your DNA can guide detox strategies for improved energy and resilience.

Additional speakers include Dr. Lisa Piper, Dr. Cyntia Brown, Zoe Karli, Arabica Cunegin, Dr. Jin-Xiong She, Valérie Orsoni, Dr. Brandon Nwannunu, Dominika Laureto, Gabby Rosely, and Shah Haq, covering a wide range of topics across science, wellness, and human performance.

## Expo Hall and Community

Beyond the talks, the conference features a hands-on expo hall where attendees can explore new health technologies, tools, and practices. From wearable devices to nutritional solutions, the expo showcases innovations at the intersection of science and lifestyle.

Biohackers World is more than just an event, it's a growing community built around curiosity, shared learning, and real-life experimentation. Whether you're a health enthusiast or simply curious about what's next, you're invited to join the conversation and explore new ways to feel better, live longer, and think more clearly.
