

'Luke' by Tahan Music Co. - A Lovable Country Summer Anthem about Friendship, Faith, and the Miracle of Life

This summer anthem honors what could've been lost but wasn't. Luke is a story of life, grace, and the power of one woman's decision.

NASHVILLE, TN, UNITED STATES, June 23, 2025 /EINPresswire.com/ -- Some songs make you dance. Some make you cry. And every once in a while, a song comes along that makes you remember what really matters. Luke, the newest release from [Tahan Music Co.](https://www.tahanmusic.com/), is one of those rare songs, the kind you'll want to sing with the windows down, then sit in silence afterward just to take it all in before playing it over and over again.

"Luke" by Tahan Music Co.

Officially releasing today, Luke is a lovable, [pro-life country music](#) anthem written by Tahan Music Co.'s [Christian songwriters Joel and Kristen Broughton](#).

“

This song is inspirational, sweet, and honest. Something that feels like sunshine and truth all at once.”

Kristen Broughton

Luke begins with a simple memory: two six-year-old boys meet on a spring day, bond over fishing and laughter, and build a lifelong friendship. But by the end of the song, listeners realize their bond was only made possible by a decision that changed everything - a woman who almost ended her pregnancy, but at the last moment, chose life.

One choice, made alone and in silence, becomes the

foundation of the song.

"This was never just about two friends," says Joel. "It's a story about God's grace showing up in some of the quietest, most unexpected places, like in the reality of a baby's kick on the way to a clinic."

This is the second release from Tahan Music Co. Luke blends warm country rhythms with emotional storytelling in a way that feels both nostalgic and new. It's the follow-up to their breakout debut *Astronaut*, but this time, the spotlight is on the ripple effect of one life and how God uses even the smallest moments to write eternity into the everyday.

"This song is inspirational, sweet, and honest," says Kristen Broughton, Artistic Director and co-writer of Luke. "Something that feels like sunshine and truth all at once. This song celebrates the kind of friendship that sticks, and the kind of grace that saves in a moment and lasts for a lifetime."

Luke was written to encourage women who are scared, those waiting to be born, and the listeners who need a reason to believe that their life is greatly valuable.

The Heart Behind the Song

From the first lines: "On a sunny spring day when I just turned six / A small kid came running holdin' two big sticks," the song captures something timeless: the innocence of childhood, the simplicity of friendship, and the way those early bonds can shape a lifetime.

But the real turn comes later as the lyrics reveal that Luke, the boy who became the narrator's best friend, almost wasn't born at all:

"Luke's mama finally told him that he almost didn't make it
When his dad left her she cried and couldn't take it
And on the way to end it she felt him kick on that drive
And through God's sweet grace she couldn't do it he was alive."

The lyric is soft-spoken. But its message is not. It's bold, unflinching, and full of truth. Luke offers a window into what happens when God interrupts our pain with His grace and how the ripple of one life affects generations.

"We believe that music can speak where conversations sometimes can't," Joel adds. "God gave us this song. The lyrics came fast, and we know they weren't from us. They were meant to go out and do something. Luke is going to help people. We've already seen it start."

Not Just a Song...A Message

For Joel and Kristen, Luke represents more than another great summertime single in the country space. It's a declaration of values. A testimony in melody. A cultural conversation-starter grounded in spirit and story.

"So many songs today are about what's been lost," says Kristen. "What about singing about what's been found?"

"This song is for every woman who wonders if she has what it takes to become a mom." Kristen continues. "It's for every listener who wonders if their life is valuable."

The Sound of Summer Reimagined

Musically, Luke brings a clean, modern tone to the table layered with warmth, anchored in tradition, and paced to let the lyrics breathe. Produced by Ben Reno, the track showcases Tahan Music Co.'s signature sound: rich storytelling, masterful instrumentation, and crystal-clear purpose.

The song's arrangement is intentionally unhurried. There are no overproduced moments, just two friends, a lake, and a lifetime of laughter stitched through with quiet awe. It's a song that can stay on repeat all day long. It's for backroads, barbecues, and barstools, and every moment in between.

"We don't make music to chase the charts," Joel says. "We make it to tell the stories that God gives us to reach those who need it."

And while the song opens with playfulness, sunlight, friendship, fishing, it doesn't shy away from depth. Luke carries the significance of memory, the power of legacy, and the quiet strength of women who say yes to life when the world may tell them not to.

This is country music in its purest form; honest, reflective, rooted in story. An any town narrative with eternal meaning.

"God gave us this song," Kristen shares. "It's like He was handing us a message that someone out there needs right now. We know it's not our story, but we also know it is someone's. Maybe it's the story for many."

At its core, Luke is a highly enjoyable, gentle yet powerful reminder that every life carries divine purpose. But it's not just a great message, Joel and Kristen dialed in the perfect sound, and with their producer, Ben Reno, assembled a phenomenal team to bring Luke to life.

Craftmanship, Credibility, and Nashville Excellence

Beyond its heartfelt message, Luke stands out for its stellar musical craftmanship. Once again, this single features Austin Addams, a master of all things stringed, whose dynamic studio work, versatility, and commanding stage presence has made him a standout across Nashville and beyond. Addams layers strings with subtle brilliance, deepening the track's emotional pull.

The heartbeat of the track is carried by Shawn Fichter on percussion, an industry veteran known for his work with Tim McGraw, Faith Hill, Trisha Yearwood, and more - whose rhythmic touch

anchors Tahan's songs with precision, warmth, and power.

Under the guidance of Ben Reno, the song unfolds with depth, polish, and intentionality. Rounding out the track is a lineup of seasoned Nashville musicians and vocalist whose contributions reflect the same level of excellence, bringing richness and authenticity to every note. Every element is a testament to Tahan Music Co's commitment to both message and musical mastery.

A Song That Could Save a Life

The theme of grace in Luke isn't abstract, it's literal. The song centers on the truth that every life is a miracle, and every person born is part of a bigger plan. Luke's mom, who almost gave up, chooses life because of one small kick. That kick becomes a ripple, and that ripple becomes the whole story.

"We often say, 'share a song, save a life,'" Kristen says. "And this is that kind of song. It's a reminder that life isn't a limitation. It's a gift. It's not the end of your dreams; it's the beginning of God's plan to add more to it."

In a culture that tells women to fear motherhood, Luke flips the script. It honors motherhood. It honors courage. And it celebrates the choice to follow God's plan instead of fear.

Songwriters. Storytellers. Truth Carriers.

"It's a calling," Joel says. "We write every word, every melody, with prayer and intention. We believe God deposits songs into our hearts — not just for entertainment, but for impact."

As founders and songwriters behind Tahan Music Co., Joel and Kristen are building something far deeper than just a label. They're cultivating a creative space for truth to be sung over culture, a sound that's unafraid to carry light into dark places and hope into hearts that have been weary for too long.

Tahan means "merciful" in Hebrew, a reflection of the heart behind every note. But it also holds a second, powerful meaning for Tahan Music Co.

TAHAN: They All Have A Name.

Every child. Every life. Every heartbeat. Each one known by God. Each one worth honoring.

"Our music exists to show people they're not forgotten," Kristen says. "Life isn't random chance. There is divine design and purpose in everyone."

Threads of Grace: Stories That Intertwine

If Luke teaches anything, it's that no story stands alone. The life of one child becomes the joy of another. One woman's decision in the quiet of her car becomes the legacy of decades of friendship, laughter, love, and purpose. Grace kicks in and it becomes a lifetime of impact.

"That's the part we can't afford to miss," Joel says. "Every life carries threads that will someday hold someone else together. Every person is a solution, an answer to someone's prayer. God has always been the master weaver. He interlaces people's lives for redemption, for restoration, for purpose."

"That's right. Life isn't a limitation, it's a launchpad into more," Kristen adds. "When we surrender our plans to God's story, we don't lose — we gain. We gain identity. Healing. Joy. A future. Family and relationships. And we get to play a part in someone else's miracle too."

The beauty of Luke lies in its simplicity- the daily, familiar things we all hold dear: friendships that last a lifetime, fishing trips passed down from one generation to the next. The idea of legacy is central to the song's impact. Luke doesn't just honor a single life, it honors what that life means to others. The role we play in each other's stories. And it holds up the idea that even in our smallest choices, we are setting into motion ripples effects that last for generations, that affect many more than just us.

A New Kind of Country, A New Kind of Mission

At a time when mainstream country is saturated with heartbreak, rebellion, and empty noise, Tahan Music Co. is carving out space for something different, something that speaks to the soul, not just the ear.

"We're not afraid to be different," Joel says. "Because what's popular isn't always what's right. We're here to bring back depth — to write songs that say what people have been aching to hear. They want truth. They want something to smile about. When a song like Luke goes out into the world, we trust that God will send it where it needs to go."

The Ripple Effect of a Single Life

One of Luke's most powerful themes is the unseen ripple effect of choosing life. One woman's quiet decision not only allowed her son to live, it created an entire legacy.

"It's easy to forget that every life affects more than just one person," says Kristen. "Luke's story reminds us that one decision against fear can lead to a lifetime of joy, laughter, and connection."

Joel nods, "When we think about ending a pregnancy, it's not just about the woman or just about the child. It's about the whole family, the best friend. The future wife. The kids. The generational

impact. We don't necessarily realize what's lost, but God does."

The lyrics are laced with these ripples, fishing trips, marriage celebrations, future grandchildren, and all of it possible because of grace.

The song's central lyric, "Mama says I'm only here by Grace, but I don't know her, do you?", brings grace into focus as something mysterious, protective, and divinely real. By the end of the song, the listener understands that grace was never another person. It was God himself, God's grace, guiding a frightened woman to choose life and step bravely into the role of motherhood at what may have seemed the worst time possible.

As Luke releases across all major streaming platforms today, Tahan Music Co. isn't praying just for streams, but for stories. For ripple effects. For divine interruptions in the best ways.

"We hope women will hear Luke and pause before making a forever decision out of fear," Joel says. "We hope people will realize that being a great friend to someone else makes them an everyday hero too."

Kristen adds, "See, only God can create life, and when He does, it's never by accident. We need to get this. Every child is part of His flawless plan, even when the timing feels unexpected, or the circumstances look messy. Think of Luke's story- God didn't cause Luke's mom to be in pain, but He was standing by, full of mercy, because He's good, and He gave her a new reason to celebrate."

"Life isn't perfect and nobody has it all together," Kristen continues, "His grace is available to everyone. In any given moment we can stop, turn to Jesus and ask Him to help, and He will help. No one is alone. God isn't mad at you, and He doesn't cause pain- He is good, and He loves you. So, what if the mess is really just an opportunity for a miracle? Life is a miracle. God can use one life to change everything."

Share a Song. Save a Life.

Tahan Music Co. can't do it alone. They need you. That's why they're inviting every listener to become a part of the movement. Share a Song, Save a Life. It's not just a catchy phrase—it's a call to action. When you share Tahan Music Co.'s music on social media, when you add it to your playlists, when you tell your friends about it, you're doing more than just supporting an artist. You're giving someone else the chance to hear a message that could literally save a life.

Even if this music only ever saved one life, it would all be worth it. But imagine the ripple effect—imagine millions of lives touched by the message of life, hope, and love that Tahan Music Co. is sharing. That's why supporting this movement is so important. It's about changing hearts, one song at a time. It's about being a light in the darkness. It's about using country music to build a culture of life.

We know that God often uses the simple things of this world to accomplish His greatest works. Every melody, every lyric, every chord progression is a gift meant to be shared. They knew that when they said “yes” to sharing that gift, God could take it and do something incredible. And you can be part of all that too.
