What Is The Projected Future Growth Of The Intermediate
Bulk Container Market Size?

The growth trajectory of the intermediate bulk container market is expected to continue rising. The market size is projected to swell to \$5.76 billion by 2029 with an impressive CAGR of 10.3%. This significant growth can be credited to a myriad of factors such as global supply chain dynamics, regulatory compliance and safety standards,

increased demand for flexible packaging solutions, an expanding chemical and petrochemical industry, global trade growth, as well as a shift in consumer preferences and a rise in circular economy initiatives.
