The Business Research Company

The historical period noted considerable growth in the herbal medicine market, with its size burgeoning from \$214.32 billion in 2024 to a predicted \$235.5 billion in 2025. This represents a compound annual growth rate CAGR of 9.9%. This remarkable progress can be attributed to a combination of factors such as traditional practices, limited access to modern medicine, cultural heritage, the holistic benefits of natural treatments, and historical documentation regarding the effectiveness of herbal products.
