

# BPC wins top honours for Card Management Solution Global 2025

*By winning the title of 'Card Management Solution Global 2025', BPC, a global leader in payments solutions, has again proved it's top technology capabilities.*

LONDON, UNITED KINGDOM, June 30, 2025 /EINPresswire.com/ -- Brands Review Magazine, a leading online Digital Magazine from London, takes pride in identifying banks and other organisations with special products/services that prove to be a game-changer when meeting the expectations of the target audience. By winning the title of '[Card Management Solution Global 2025](#)', the BPC, global leader in [payments solutions](#), has cemented its position as one of the respected influential leaders in the banking and financial sector.

Having made its humble beginning in 1996, within 28 years, BPC has expanded its footprint in more than 140 countries.

Winning this award proves our commitment to stay at the innovation edge of technology"

*Angelo Bertini, Executive VP,  
Global CCO and Board  
Member, BPC.*

Having made its humble beginning in 1996, within 28 years, BPC has expanded its footprint in more than 140 countries and 500 customers that span across Europe, Asia, the Middle East, Africa and the Americas. BPC's flagship product is SmartVista, a next-generation microservices based platform that offers a suite of software solutions tailored to cater to diverse markets and clients, ranging from commercial tier-1, tier-2 banks, neobanks, fintechs, payment service providers, processors, national switches and payment systems, retailers,

merchants, microfinance institutions, lending organisations to government entities and transport operators.

The [SmartVista Card Management & Issuing platform](#) enables banks, fintechs and other issuers to roll out and administer card programmes (virtual or physical). Available on-premise or as a service, it handles every wallet and payment instrument, covering credit, debit, prepaid and

multi-purpose cards. Institutions can configure products through development tools, ready-made B2C templates and adjustable workflows, link several cards, brands and accounts to one customer record, and create sub-accounts for consumer or corporate needs. A built-in credit engine, dynamic pricing capability and BNPL support let issuers respond rapidly to changing market requirements. The solution is built for high-volume, real-time processing, offering global scheme connectivity, 24/7 availability and full PCI compliance. Open APIs and ISO 20022 messaging simplify integration with core banking, CRM, fraud and analytics stacks.

BPC card management solution has earned worldwide recognition. SmartVista CMS unifies a real-time accounting engine, loyalty and campaign tools, and EMV data prep behind a user-friendly dashboard that gives issuers instant customer insights and automated upgrades. Its open,

API-first architecture supports tokenisation, mobile and embedded-finance use cases, multi-currency with DCC, and seamless sandbox integration to any core. A powerful back office covers clearing, settlement, fees, disputes, fraud, GL and rich reporting, while built-in transfer rails link accounts to virtual wallets for online top-ups or ATM cashouts.

“Winning this award proves our commitment to stay at the innovation edge of technology” stated Angelo Bertini, Executive Vice President, Global Chief Commercial Officer and Board Member, BPC. “Through SmartVista card management we allow customers to roll-out first to market features and deliver exceptional digital products at speed. Our mission remains clear - empower every financial-services player to accelerate payments innovation and deliver next-generation digital experiences through rapid, reliable product delivery.”

Bill Thornton, the Head of Content and Research for Brands Review Magazine, expressed his appreciation on BPC winning the award, “We, at Brands Review Magazine, feel happy with BPC winning the reputed title, as they have always stayed a step ahead in terms of offering the best
