ABOUT NEFT VODKA:

NEFT was conceived in 2011 to shatter expectations about vodka in a category lacking premium options made with super-clean ingredients. NEFT is made from mountain spring water filtered centuries deep beneath the Austrian Alps and ancient grains of rye. Nothing else. No sugar, no additives. Hence, a vodka with a refined and sophisticated taste so delicious that it can be enjoyed neat, straight up, or on the rocks was created. NEFT's unbreakable barrel is an eco-friendly and versatile container that keeps the liquid cold for hours.
