Third-party administrator acts as an intermediary between the insurance company and policyholder to ensure cashless claims, and reimbursement claims are settled effectively. Increase in health insurance customers has accelerated the quantity of work and led to decrease in the quality of services. Therefore, third-party administrators are established to assist insurers to arrange for cashless treatments for customers demanding seamless claim settlements. In addition, third-party administrators scrutinize hospital bills and documents for their accuracy and help in the processing of the claim.

Surge in adoption of third-party administration services in the health insurance industry and rise in need for operational efficiency & transparency in insurance business process drive the growth of the U.S. Insurance Third Party Administrator market. However, security issues and privacy concerns restrain the market to some extent. On the other hand, advancements in third-party administrator services presents new opportunities in the upcoming years.

Based on enterprise type, the large enterprises segment held the highest market share in 2020, holding nearly two-thirds of the total market share, and is expected to continue its leadership

status during the forecast period. Moreover, the SMEs segment is estimated to register the highest CAGR of 5.6% from 2021 to 2030.
