

# Barcode Reader Market Expected to Expand to \$13.3 Billion by 2032, Growing at 6.3% CAGR From 2022-2032

*Barcode reader market was valued at \$7.4 billion in 2022, and is projected to reach \$13.3 billion by 2032, growing at a CAGR of 6.3% from 2023 to 2032.*

WILMINGTON, NEW CASTLE, DE,  
UNITED STATES, June 24, 2025

/EINPresswire.com/ -- According to a new report published by Allied Market Research, titled, "[Barcode Reader Market](#)", by Type (Handheld, Fixed), by Application (Logistics and Warehousing, Industrial

Manufacturing, Retail and Wholesale, Healthcare, Others): Global Opportunity Analysis and Industry Forecast, 2022 – 2032," The report offers a detailed analysis of the top winning strategies, evolving market trends, market size and estimations, value chain, key investment pockets, drivers & opportunities, competitive landscape and regional landscape. The report is a

“

The growing trend towards sustainability is driving the adoption of eco-friendly materials in the production of barcode reader products.”

The barcode reader market demand is experiencing a transition from traditional 1D barcode readers to 2D barcode readers. This shift is driven by the advantages of 2D barcodes, such as increased data storage capacity and support for advanced applications like mobile payments,

ticketing, and inventory management. With the widespread adoption of smartphones and tablets, barcode technology is being integrated into mobile devices. This integration allows businesses and consumers to leverage the convenience of mobile barcode scanning for various applications, including product information lookup, mobile payments, and loyalty programs.

Advancements in technology have played a crucial role in propelling the [barcode reader industry](#) forward. The development of more compact and portable barcode readers has made them more accessible to a wider range of users. Additionally, the integration of wireless connectivity options like Bluetooth and Wi-Fi enables seamless connectivity with various devices, such as computers, smartphones, and tablets, further expanding their usability. Furthermore, the integration of advanced scanning technologies, such as 2D imaging, enables the reading of complex barcodes and opens up opportunities for applications beyond traditional barcode scanning, such as scanning QR codes and mobile ticketing.

The barcode reader market outlook is segmented into Type and Application.

Based on type, the handheld segment held the highest market share in 2022, accounting for more than half of the global barcode reader market revenue, and is estimated to maintain its leadership status throughout the forecast period. The same segment would also showcase the fastest CAGR of 6.82% from 2023 to 2032.

Based on application, the logistics and warehousing segment held the highest market share in 2022, accounting for nearly half of the global barcode reader market revenue, and is estimated to maintain its lead position throughout the forecast period. The same segment would display the fastest CAGR of 6.9% from 2023 to 2032.

Based on region, North America held the highest market share in 2022, accounting for nearly half of the global barcode reader market revenue, and is likely to dominate the market during the forecast period. There has been a growing emphasis on document digitization and workflow automation in North America. Businesses are increasingly investing in barcode readers to convert paper documents into digital formats, enabling efficient document management, improved productivity, and streamlined workflows. However, the LAMEA region is expected to witness the fastest CAGR of 7.48% from 2023 to 2032.

## Analyst Review

The barcode reader market is anticipated to depict a prominent growth during the forecast period, owing to various factors, such as an increase in adoption of handheld barcode readers that fuels the demand for barcode reader market. In addition, the market is influenced by growth in investments in the retail sector and rise in urbanization to drive the market growth.

However, the high cost of barcode readers hampers market growth to a certain extent. Each of these factors is anticipated to have a definite impact on the global barcode reader market during the forecast period.

The barcode reader market exhibits high growth potential in logistics and warehousing sectors. The current business scenario has witnessed an increase in demand for security, particularly in developing regions, such as China and India, owing to surge in population and rise in demand for scanning. Companies in this industry have adopted various innovative techniques, such as mergers and acquisitions, to strengthen their business position in the competitive matrix.

#### Key Finding of the Study:

- The barcode reader market growth is expected to continue growing in the coming years, driven by increasing demand for barcode reader products across various industries, technological advancements, and a growing trend towards sustainability.
- The growing trend towards sustainability is driving the adoption of eco-friendly materials in the production of barcode reader products.
- Asia Pacific is the largest market for barcode reader, driven by the increasing demand for qr code scanner products in industries such as packaging, building materials, and automotive. The region is also home to some of the largest manufacturers of scanners.
- The barcode reader market trends is highly competitive, with several major players operating globally. To remain competitive, companies are focusing on product innovation, strategic partnerships, and expanding their distribution networks.

#### Key Benefits for Stakeholders:

- This study comprises analytical depiction of the global barcode reader market size along with the current trends and future estimations to depict the imminent investment pockets.
- The overall global barcode reader market analysis is determined to understand the profitable trends to gain a stronger foothold.
- The report presents information related to key drivers, restraints, and opportunities with a detailed impact analysis.
- The current global barcode reader market forecast is quantitatively analyzed from 2022 to 2032 to benchmark the financial competency.
- Porter's five forces analysis illustrates the potency of the buyers and suppliers in the barcode reader.
- The report includes the market share of key vendors and global barcode reader market trends.
