Environmental Consulting Services Global
Market Report 2025 – Market Size,
Trends, And Forecast 2025-2034*

LONDON, UNITED KINGDOM, June 25,
2025 /EINPresswire.com/ -- What Is The
Growth Trajectory Of The
[Environmental Consulting Services
Market?](#)

The Business
Research Company

The Business Research Company

The environmental consulting services market has been experiencing a steady growth in recent years. It is set to grow from a size of \$58.29 billion in 2024 to \$60.72 billion in 2025, showcasing a compound annual growth rate CAGR of 4.2%. This growth in the historic period can be mainly

attributed to low interest rates, strong economic growth in emerging markets, impact of e-waste, escalated government regulation and a rise in shale oil and gas production.

What Are The Propulsion Factors Behind The [Environmental Consulting Services Market Growth](#)?

The rise in demand for water and waste management consulting services is anticipated to be a key catalyst for the growth of the environmental consulting services market going forward. These services, which are essentially professional services, provide expert advice and guidance to companies and individuals regarding water and waste management issues. Environmental consulting services work in tandem with water and waste management consulting services, managing hazardous waste and mitigating its adverse environmental impact. They also facilitate businesses in their journey to become more sustainable by implementing practices such as green building, proper waste management, and the use of renewable energy, while reducing pollutants and emissions.
