

# Monitaur Recognized as a Leading AI Governance Provider by Various Market Analysts

*Recognized by Forrester, Gartner, and more, Monitaur earns praise for full-lifecycle AI governance across regulated enterprise use cases.*

BOSTON, MA, UNITED STATES, June 25, 2025 /EINPresswire.com/ -- [Monitaur](#), a trusted AI governance platform for regulated enterprises, has been recognized by Forrester as a notable vendor in its AI Governance Solutions Landscape, Q2 2025. This follows continued recognition by 451 Research, MarketsandMarkets, and GRC 20/20 for Monitaur's unique ability to bridge policy, model oversight, and compliance across the AI lifecycle.

We believe that these acknowledgments reflect a growing consensus: high-impact AI systems require more than good intentions; they require infrastructure for transparency, accountability, and trust.

"Since our founding, we've focused on building a complete governance solution that meets enterprises where they are," said [Anthony Habayeb](#), CEO and co-founder of Monitaur. "We think that being recognized by analysts and customers alike speaks to the practical value we're delivering for teams managing risk, scaling AI, and proving they're doing it responsibly."

Monitaur's platform supports everything from policy creation and model inventory to continuous validation of model performance, bias, and drift, spanning both classical ML and generative AI use cases. Its tools are used by some of the most regulated organizations in financial services and insurance.

We think that the recognition comes amid rising pressure on companies to operationalize AI governance, particularly as generative AI introduces new challenges in monitoring, security, and explainability. While executive ambition around AI is high, implementation is uneven, creating demand for purpose-built tools that help bridge the gap between vision and execution.

“There are a lot of vendors referencing AI governance,” said Michael Rasmussen, a leading GRC analyst. “But Monitaur is one of the only platforms I’ve seen that supports the full lifecycle and intent of true governance.”

#### Recent Analyst Recognition Highlights:

-Forrester included Monitaur in The AI Governance Solutions Landscape, Q2 2025, citing its capabilities across model trust, security, and regulatory alignment.

-Monitaur was named as a Representative Vendor in the 2025 Gartner® Market Guide for AI Trust, Risk, and Security Management, and mentioned the company in its Top Strategic Technology Trends for 2025 and in its Hype Cycle for Artificial Intelligence, 2025.

-MarketsandMarkets named Monitaur a leader among end-to-end governance platforms, alongside legacy incumbents like IBM.

-451 Research (S&P Global) and GRC 20/20 have also highlighted Monitaur’s differentiated position in the maturing AI governance ecosystem.

#### About Monitaur

Monitaur is the premier AI governance solution for the insurance industry that helps companies use AI systems that businesses, regulators, and consumers can trust. The company delivers software and expertise that help insurers and their partners define, manage, and automate fundamental best practices throughout the modeling project lifecycle. With Monitaur, companies can accelerate innovation with clarity and confidence in the transparency, performance, fairness, safety, and compliance of their modeling systems.
