Securing BYOD Environments with AppTec360's Trusted SecurePIM Container

Trusted BYOD container solution from AppTec360 ensures secure corporate data access, compliance, and privacy on employee-owned mobile devices.

NY, NY, UNITED STATES, June 26, 2025 /EINPresswire.com/ -- AppTec360 continues to strengthen enterprise mobility strategies with its SecurePIM Container, a solution developed specifically to support and manage Bring Your Own Device (BYOD) environments with enterprise-grade data protection and compliance features.

As mobile-first and hybrid work models evolve, the need for robust, privacy-conscious data protection on personal devices remains a top priority for IT leaders.
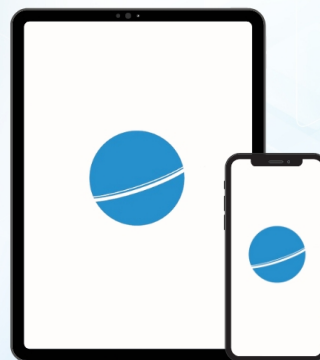

AppTec360's SecurePIM Container secures corporate data on personal

KEEP YOUR DATA SAFE WITH

With APPTEC360, create secure zones on mobile devices for critical corporate data. Employees can access this data securely, eliminating the risks of data interception.

devices through isolation and encryption. Purpose-built to isolate and encrypt corporate data on personal devices, SecurePIM provides an integrated suite of tools for email, calendar, contacts, notes, tasks, document access, and secure browsing, all within a containerized application.

This architecture allows enterprises to enforce IT policies, enable remote wipe capabilities, and ensure corporate data never crosses into the personal space of the user.

Key Features and Benefits of AppTec360's SecurePIM Container

The SecurePIM Container simplifies the secure management of corporate data on personal

devices through:

End-to-end encryption to safeguard sensitive information

Secure email, calendar, and document handling within the container

Policy-driven remote wipe for instant data revocation on lost or compromised devices

Strict separation of corporate and personal data to maintain user privacy

Global 100 Award 2024 "Best IT Control & Mobile Device Management Solutions Company – UK"

Built-in secure browser for safe access to internal resources

Compliance-ready architecture supporting major data protection regulations

Optimized user experience to ensure adoption without productivity loss
