[What Is The Aircraft Galley Carts Market Forecast?](#)

Looking forward, the aircraft galley carts market is expected to grow to \$5.59 billion in 2029, at a compound annual growth rate CAGR of 6.8%. This future growth is predicated on the rising trend of premium cabin offerings, emphasis on sustainable practices, integration of advanced catering technologies, and increased focus on hygiene and

safety. In addition, compliance with aviation regulations, remote monitoring, and maintenance, enhanced connectivity, and entertainment, along with the adoption of touchless technologies, are also catalyzing the growth.

What Are The Key Drivers Predicted To Fuel [Aircraft Galley Carts Market Growth](#) In The Coming Years?

The key driving factor in this growth is the rising air passenger traffic. Air passenger traffic, which

refers to the total number of passengers traveling by air on commercial flights within a specific period, typically measured over days, months, or years. As a crucial component of in-flight operations, aircraft galley carts play a pivotal role in efficiently storing, transporting, and serving passengers meals, snacks, and beverages during flights.
