

IagoSmart Launches AI Security Ecosystem for Nigerian Businesses, Estates, Smart Cities & Critical Infrastructure

IagoSmart debuts AI-powered security suite built for Nigeria's estates, industries, and smart cities with automation and surveillance.

IKEJA, LAGOS, NIGERIA, June 26, 2025 /EINPresswire.com/ -- IagoSmart Networks Limited, a leading name among CCTV installation companies in Lagos, Nigeria, announces the rollout of its fully integrated AI-powered security ecosystem, offering comprehensive solutions for businesses, estates, smart cities, manufacturing & petroleum industries, and critical infrastructure in Lagos, Abuja, Port Harcourt, and across Nigeria. Built specifically for Nigerian environments, this comprehensive suite combines artificial intelligence, biometric access control, surveillance analytics, facility automation, and renewable energy systems to empower Nigerian organizations and municipalities in safeguarding lives, assets, and critical operations.

IagoSmart's offerings include CCTV installation, turnstile systems, metal detectors, baggage scanners, control rooms, and advanced building automation technologies. Whether you're managing an estate, a corporate tower, or an industrial plant, IagoSmart delivers security installations in Nigeria that are predictive, connected, and reliable. IagoSmart delivers tools that go beyond monitoring, offering predictive insights, proactive alerts, and integrated automation across systems.

Key Offerings Include:

The graphic is a promotional image for IagoSmart's security solutions. It features a man in a light blue shirt sitting at a desk, looking at a computer monitor displaying various security camera feeds. In the top right corner, there is a white dome-shaped security camera. The IagoSmart logo, which consists of a stylized 'i' icon followed by the text 'IagoSmart System Integration & Automation', is in the top left. The text 'SECURITY SURVEILLANCE SOLUTIONS' is prominently displayed in the center-left. To the right of this, a vertical list of services is shown, each preceded by a small circular icon: 'Video Surveillance Solutions', 'Operations Surveillance', 'Perimeter Protection', 'Face Recognition', and 'Data Crunching'. Below this list is a black button with the text 'Learn More' in yellow. At the bottom of the graphic, there is a dark blue bar containing a phone icon, the number '+234 815 735 3535', an email icon, and the address 'sales@IagoSmart.net'. Below the graphic, a line of text reads: 'Advanced AI Surveillance by IagoSmart — protecting businesses, estates, and smart cities across Nigeria.'

Advanced AI Surveillance by IagoSmart — protecting businesses, estates, and smart cities across Nigeria.

CCTV Installation in Nigeria: Smart surveillance with AI analytics, facial detection, and behavior recognition. Ideal for offices, logistics hubs, and retail spaces.

Turnstile & Access Gate Systems: Integrated with biometric access for secure, contactless, and controlled facility entry.

Metal Detectors & Baggage Scanners: High-sensitivity scanners designed for airports, schools, government buildings, and public venues.

Biometric Access Control: Fingerprint, RFID, and facial recognition integrated with visitor management and time tracking.

Fire & Intrusion Detection: Real-time smoke, gas, and breach alarms connected to centralized alert systems.

Building Automation: Smart HVAC, lighting, and elevator controls to improve energy usage and facility performance.

Solar Power Backup: Hybrid inverter systems with energy dashboards for off-grid reliability.

Integrated Security Architecture for Specialized Sectors: Tailored solutions for petrochemical plants, airports, educational campuses, residential estates, banks, and data centers.

“

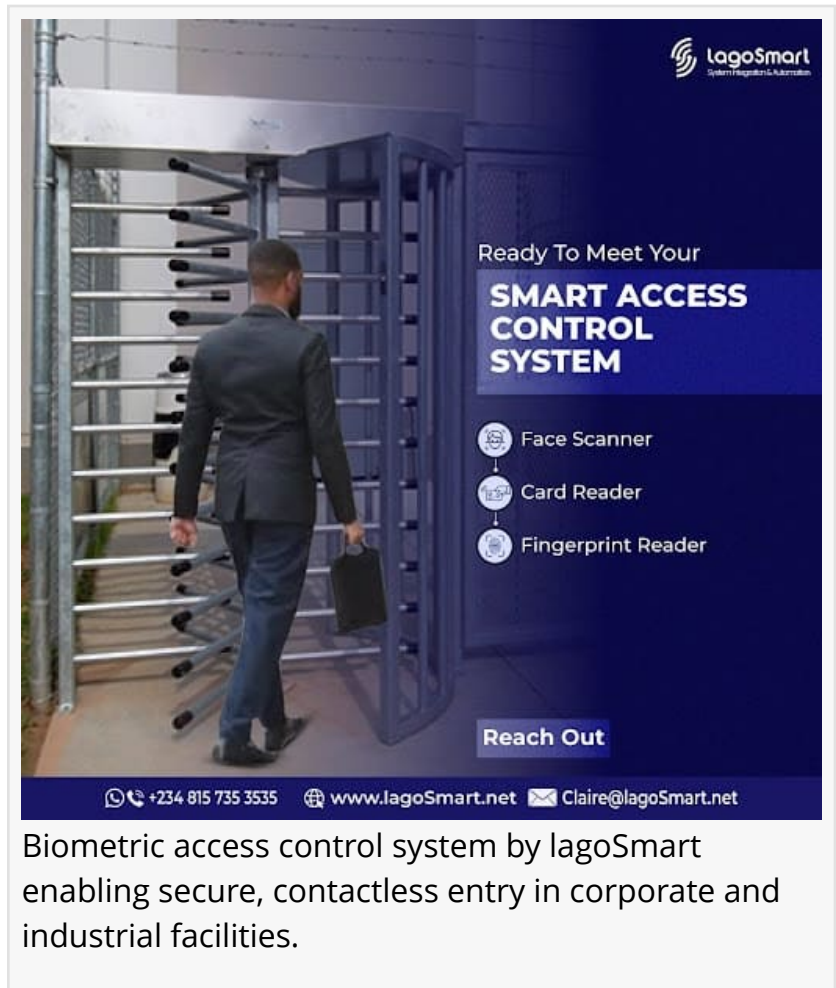

Our mission is to secure Nigeria's future with smart, scalable systems that prevent threats before they happen”

Abhay Yadav, Executive Director, lagoSmart Networks

smarter, safer infrastructure.

About lagoSmart Networks

lagoSmart is a Nigerian-based B2B systems integrator specializing in intelligent access control, AI surveillance, smart building systems, fire and safety infrastructure, and renewable energy deployment. Serving sectors such as government, oil & gas, education, real estate, and logistics,

Ready To Meet Your
SMART ACCESS CONTROL SYSTEM
