

Author Seeks Thoughtful Early Readers for Bold New Take on Israeli-Palestinian Conflict

LOS ANGELES, CA, UNITED STATES, July 8, 2025

/EINPresswire.com/ -- Published nonfiction author Steven C. Markoff is inviting dedicated Beta Readers to preview and provide feedback on his forthcoming nonfiction book, "An Improbable Solution to the Israeli-Palestinian Conflict: Historical Events, Population, Land Ownership, and Quotes From Both Sides."

This comprehensive and timely book traces the complex history of the Israeli-Palestinian conflict from ancient times to the present day, exploring shifts in land ownership, population demographics, and key flashpoints in the region's turbulent past. Drawing from published, sourced data, historical records, and direct quotations from leaders and commentators on both sides, the book aims to present a balanced and accessible account of one of the world's more enduring conflicts.

"I was planning on publishing the book when it was complete," Markoff said, "but the current killings, war and destruction in the Middle East has intensified global interest and misinformation, so I'm looking for help to speed up the work's completion."

The book offers unique context on how the terms "The Land" or "Palestine" have evolved geographically and politically across centuries, encompassing not only present-day Israel but parts of Egypt, Syria, Iraq, Jordan, Lebanon, and Saudi Arabia.

The book does not shy away from sensitive topics, including the Right of Return, Ethnic Cleansing, Apartheid, Genocide, and Crimes Against Humanity—controversial yet essential elements of the public debate.
