([FederalGovernment.info](#)) announced major service improvements to its business-government connection platform. FEDCON now offers adaptable remote IT services through elite IT providers which specifically help government contractors with a main focus on supporting Veteran-Owned Small Businesses (VOSBs) and Service-Disabled Veteran-Owned Small Businesses (SDVOSBs).

The government contracting sector's growing need for adaptable IT security solutions led FEDCON to build alliances with top partners who deliver remote services. The initiative provides full IT services to all contractors with no size or location restrictions through its network. FEDCON feels that more of this work should go to small businesses rather than faceless conglomerates.

- **Help Desk Support:** Providing timely and efficient technical assistance to ensure uninterrupted operations.
- **Cybersecurity Solutions:** The organization implements advanced security protocols to defend critical government information while adhering to regulations.
- **Cloud Services:** The organization provides adaptable cloud infrastructure along with application management capabilities.
- **Network Management:** The network provides both secure and reliable connectivity to all users.
- **Data Backup and Recovery:** Strategies for protecting

essential data and maintaining business operations form part of the service.

The new service provides special advantages to VOSBs and SDVOSBs who struggle to obtain affordable reliable IT support. The government contract management capabilities and competitive advantages FEDCON provides to its clients enable their growth within the federal marketplace.

“There are contractors – especially those that are veteran-owned – that simply have a comparative advantage to win these contracts and with our connections to an elite IT Park to delegate these tasks to...FEDCON is becoming a conduit to the success of small businesses doing big things”, said Thomas Routzon, operations manager at FEDCON.
