The Business Research Company

its upward trajectory. Notably, this exemplifies a compound annual growth rate CAGR of 6.7%. Such robust growth throughout this critical historic period largely reflects the escalating worldwide prevalence of diabetes, heightened awareness surrounding diabetes management, the rising adoption of sophisticated insulin delivery devices, inflating global healthcare costs, and a greater preference for rapid-acting insulins.

What Is Its Annual Growth Rate?

The exponential growth in the insulin aspart market is set to continue in the next few years, projected to surge to \$4.61 billion by 2029 at a relatively steady CAGR of 6.4%. This growth during the forecast period results from an uptick in investment in diabetes research and development, a growing elderly demographic, expanding healthcare infrastructure, increasing incidence of type 2 diabetes, and a surge in patient preference for personalized diabetes management.

What Is Driving The Growth Of The Insulin Aspart Market?

One of the critical drivers of growth in the insulin aspart market has been the rising prevalence of diabetes. Diabetes, illustrated by high blood sugar levels due to the body's incapacity to produce or efficiently use insulin, is a chronic medical condition. The increase in diabetes cases is linked to sedentary lifestyles and diets high in sugar and processed foods, both contributing to obesity and insulin resistance.

Which Leading Companies Are Driving The Growth Of The Insulin Aspart Market Share?

Major companies driving forward the insulin aspart market include Sanofi S.A., AstraZeneca plc, Novo Nordisk A/S, Cipla Limited, Lupin Limited, Zhejiang Hisun Pharmaceutical Co Ltd., Biocon Limited, Amphastar Pharmaceuticals Inc., Civica Inc., Wockhardt Limited, Gulf Pharmaceutical Industries PSC Julphar, GEROPHARM LLC, HEC Pharm Co Ltd., USV Private Limited, Aqlivia Private Limited, Gan & Lee Pharmaceuticals Co Ltd., GeneSys Biologics Private Limited, Biogenomics Limited, MJ Biopharma Private Limited, Paras Biopharmaceuticals Finland Oy.

What Are The Key Trends Of The Insulin Aspart Market?

Relevantly, industry-leading companies in the insulin aspart market are increasingly homing in on developing ground-breaking products, such as biosimilars. These offer cost-effective alternatives and enhance patient access to high-quality insulin therapies. A great example of this is Insuquick, launched by India-based pharmaceutical company USV Pvt Ltd in November 2023. Marketed as India's first biosimilar insulin aspart, Insuquick is a rapid-acting insulin analog entirely developed and manufactured in India, which has met rigorous global quality standards.

How Is The Global Insulin Aspart Market Segmented?

The insulin aspart market report covers segmented sectors such as:

- 1 By Insulin Type: Human Insulin, Analog Insulin
- 2 By Product Type: Vials, Pre-Filled Pens, Cartridges
- 3 By Application: Type 1 Diabetes, Type 2 Diabetes, Gestational Diabetes
- 4 By End User: Hospitals, Home Care, Specialty Clinics, Diabetes Care Centers, Other End Users

Additionally, there are subsegments for Human Insulin: Regular Insulin, Neutral Protamine Hagedorn NPH Insulin, Other Human Insulin Types and Analog Insulin: Rapid-Acting Analog Insulin, Long-Acting Analog Insulin, Other Analog Insulin Types.

What Are The Leading Region In The Insulin Aspart Market?

In 2024, North America claimed the largest region in the insulin aspart market. However, Asia-Pacific is projected to be the highest in terms of growth during the forecast period. Other regions

covered in the report are Western Europe, Eastern Europe, South America, Middle East, and Africa.

Overall, the numerous advantages of insulin aspart, such as its effectiveness in controlling blood sugar spikes after meals, continue to contribute in mitigating the escalating prevalence of diabetes. This thus favors an overall improvement in blood glucose management among diabetic patients.
