Pinterest AI Pin Generator - Content Goblin Launches Next-Gen AI Platform to Turbo-Charge Pinterest & Blog Growth

Lightning-fast platform automates articles, recipes, and Pinterest pins in seconds

RAYLAND, OH, UNITED STATES, June 30, 2025 /EINPresswire.com/ -- ContentGoblin.ai officially launches its cloud-based platform that transforms a single topic prompt into a fully formatted, image-rich article and a batch of Pinterest-ready pins in seconds.

Create incredible AI Pinterst pins in seconds

What Sets Content Goblin Apart

End-to-End Automation
– Users type a topic, choose the number of sections, and let Content Goblin write headlines, body copy, and meta descriptions while it simultaneously generates high-resolution images.
– A built-in Pin Generator produces dozens of 9 × 16 graphics in one go, eliminating tedious template edits and keeping brand visuals fresh.

> Creators shouldn't have to juggle half a dozen generators and spreadsheets. Content Goblin puts the entire pipeline—from outline to pin—in one click."
>
> *Johnathan Ward, Founder & Lead Developer*

WordPress-Native Draft Publishing
– One-click export pipes every article, image, and alt-text straight into the WordPress block editor as a draft, ready for a final polish or immediate scheduling.
– The system uploads all media to the site's library automatically, so creators never touch a "Download" button.

Multi-Mode Content Creation

– Listicle Mode whips up polished top-10 style posts with contextual images under each sub-heading.
– Recipe Article Mode adds ingredient blocks, step-by-step directions, and mouth-watering food photography.
– Roundup Mode curates external links, affiliate mentions, or internal posts—perfect for marketers building silo hubs.

Free-Form Image & Outline Builders
– Creators can feed any prompt to the image engine for completely original visuals—no two pins or hero photos ever look alike.
– A drag-and-drop outline tool lets advanced users dictate exact H2/H3 structure before the AI fills in copy, ensuring bullet-proof SEO targeting.

Scales With Credits, Not Limits
– Three monthly plans (Ghoul, Ghost, Goblin) deliver 2.9K, 6K, or 14K credits that users spend however they like—on text, images, or pins.
– Top-up packs are available any time; unused credits clear at the end of each billing cycle to keep costs predictable.

Creator-First Ecosystem
– All subscribers gain entry to a private community with courses, monetization playbooks, and direct Slack access to founder Johnathan Ward.
– Every feature update drops to all tiers automatically—no nickel-and-diming for "pro" add-ons.

About Content Goblin

Content Goblin, LLC is an Ohio-based software company committed to helping publishers dominate visual search and social discovery. Combining large-language-model writing with cutting-edge image generation, Content Goblin empowers users to scale traffic from Pinterest, Facebook, and search while slashing production costs.
